number of the objections
received on this application

Existing North Elevation

Proposed North Elevation

F - fixed, non-opening

Existing Rear Elevation/Section

Proposed Rear Elevation/Section

Key Considerations

- The design of the proposed extension and alterations and the impact of these on the appearance of the site and wider Cliftonville Conservation Area.
- The impact on the amenity of current and future occupiers of the site and the neighbouring properties.
- The removal of a tree to facilitate the construction of the proposed extension.

Conclusion and Planning Balance

- The proposed extension and alterations are considered appropriate and to not harm the appearance of the site or the wider Cliftonville Conservation Area.
- The proposed extension would not have a detrimental impact on the amenity of current or future occupiers of the site.
- It is considered that the proposed extension would change the outlook slightly for 13 Sussex Road but any perceived sense of additional enclosure would not be to a level sufficient to warrant refusal of this application.
- The loss of the tree from within the garden of the application site as a result of the proposed extension is regrettable. The tree has been assessed against the criteria for protection under a Tree Preservation Order (TPO) by the Arboriculture Officer. It was found not to merit protection and as such its removal does not warrant refusal of this planning application.
- **Recommendation – Approve**
