

WRITTEN QUESTIONS FROM MEMBERS OF THE PUBLIC

A period of not more than fifteen minutes shall be allowed at each ordinary meeting for questions submitted by members of the public who either live or work in the area of the authority.

i) The following written question has been received from Daniel Harris.

“I note in the inspections report the low but slightly positive feedback from survey respondents, you state that "to date the number of occupants returning the forms has been low, and we have been reliant on staff from either the Council or proprietors completing the forms with occupants." Can I ask, were these forms also provided to other front line providers, and if so can you name the providers who completed these forms, for example Arch Healthcare, formally Morley Street Clinic or Mental Health Homeless Team?”

(ii) The following written question has been received from Nikkie Brennan (Chair of ETHRAG).

“In November’s meeting of the Housing and Homes Committee Meeting, an urgent report was requested into revenge evictions.

It is now March and it is still not on the agenda.

Can the Chair explain why, when I am hearing of an increased number of cases?

Caroline Lucas MP also recently has raised this issue.”
