1.0 INTRODUCTION & DEFINITIONS

1.1 Aims of the Policy

The aim of this policy is to provide an open, affirmative and transparent framework for community asset transfer (CAT) from the council to a third sector organisation.

The council recognises that the transfer of an asset to a third sector organisation can unlock social value, support community enterprise, attract additional investment into the asset and local area, and demonstrates the council's commitment to our communities and residents.

Community asset transfer supports council and wider community objectives to be 'citizen focused' and to encourage 'active citizenship'.

This document is designed to be used by third sector organisations and council officers to help them decide whether a community asset transfer is appropriate and, if the organisation then wish to proceed, to provide guidance on how to make an application and the decision making process.

The key principles of the policy are:

- That any transfer application must support the aims and priorities of the council as set out in an adopted policy.
- Community asset transfer is not an automatic right and all applications will be assessed on a case by case basis.
- Approved transfers will generally be on a leasehold basis. Freeholder transfers will only be considered in exceptional circumstances.
- Some transfer applications may require committee approval in addition to the decision-making process set out in section x of this policy. Applicants will be notified where this is the case.

The drivers for a community asset transfer may include:

- Supporting a third sector organisation to continue to deliver a key activity for residents where the transfer will allow the organisation to bid for and secure funds and/or to support a more sustainable business model,
- Supporting a third sector organisation to deliver a specific service in line with the council's objectives where the service can be best provided through a council owned asset,
- Protecting a heritage or otherwise important city asset that may fall into disrepair if stewardship is not provided by a third sector organisation
- Where a third sector organisation is considered to be best placed to provide an alternative delivery model for an existing council service from an existing council owned asset.

1.2 Definitions

The following definitions have been provided to help third sector organisations, council officers and elected members make best use of this policy.

1.2.1 Community Asset Transfer (CAT)

Asset transfer is the passing of management through a lease agreement or, in exceptional circumstances, ownership of a community asset from a public sector body to a third sector organisation at less than best consideration i.e. less than its market value, in order to achieve a public benefit and unlock social value. See **Section 4.2** for more details.

1.2.2 Community Assets

Community Assets that fall within this policy are listed as such on the last column (Column AF - Community Asset Transfer Policy Designation) of the 'Brighton & Hove City Council Property & Land Assets' list. The list can be downloaded from the council's website under the 'Government Transparency Agenda' section at:

<https://www.brighton-hove.gov.uk/content/council-and-democracy/council-property-and-land>.

This list will be kept under review and updated as required. Interested parties may also seek guidance on other council owned assets on the website list with the exception of property & land designated as 'non-operational' which form part of the council's commercial estate.

1.2.3 Third Sector Organisation

These are defined for the purpose of this policy as non-governmental (not part of the statutory sector – it must exist for community, social or environmental benefit), non-profit distributing (it must reinvest any surpluses to further its social and community aims) and having a local connection.

Organisations must be appropriately constituted (such as a registered charity, community interest company or charitable incorporated organisation), a not-for-profit company or cooperative such that the constitution allows the management or ownership of buildings and / or provision of services.

Such organisations must be a legal entity capable of entering a lease agreement with the council.

Local connection means that the organisation's activities are wholly or partly concerned with the city of Brighton & Hove.

1.2.4 Best Consideration

Local authorities are usually required to dispose or transfer their land and property assets on the basis of the best consideration reasonably obtainable. Best consideration refers to the commercial or monetary value to the council.

If the council is disposing of land or buildings for less than best consideration it needs to get the Secretary of State's consent. Specific consent is not required for a disposal for an undervalue of up to £2m provided that the council considers that the disposal will help it to secure the promotion or improvement of the economic, social or environmental well-being of its area. This test is referred to as social value in this policy (see **Section 1.2.5** below).

1.2.5 Social Value

Social value in this context is about ensuring that when a council owned property is transferred (lease arrangement or freehold) to a third sector organisation, that the business case for the transfer clearly explains how the transfer will help maximise economic, social and/or environmental benefits to local residents, the neighbourhood and/or the city.

This involves seeing beyond the price of an individual transfer and looking at the additional benefits to a community and how the transfer might improve the economic, social and environmental well-being of the communities.

The council's Social Value Guidance provides details of the type of social value outcomes that could be included - see **Section 2.3** for the web link.

1.2.6 Community Right to Bid

This policy does not cover the 'Community Right to Bid' which was introduced in the Localism Act 2011. The Community Right to Bid has its own legal process and is administered by the council's planning team. Further details are available on our website using the following link:

<https://www.brighton-hove.gov.uk/content/community-and-life-events/community-and-voluntary-sector-support/community-rights>.

1.2.7 Housing Revenue Account (HRA) Assets

The Housing Revenue Account (HRA) contains the income and expenditure relating to the council's social housing landlord duties in respect of tenanted and leasehold residential properties. The income and expenditure relating to these properties is accounted for separately from the council's other services and activities which form part of the council's General Fund. Should any HRA asset fall within the scope of this policy separate resident consultation (as part of the Resident Involvement Framework) and approval will be required through the Housing Governance Framework. This Framework includes, as appropriate, Area Panels, Estate Regeneration Members Board and the Housing & New Homes Committee. This is in addition to any approval required through the Policy, Resources & Growth Committee. This will mean that the decision on any application relating to HRA community assets will fall outside of the timescales proposed in **Section 6.4** below.

HRA Community Assets are identified as such on the 'Brighton & Hove City Council Property & Land Assets' list referred to in **Section 1.2.2** above. The HRA will only consider non-dwelling assets within the parameters of this policy.

2.0 THE NATIONAL & LOCAL CONTEXT

2.1 National Policy

Central government has clearly signalled their commitment to the principle of asset transfer from the public sector to third sector organisations where this will result in improved outcomes to the citizens.

This policy is underpinned by Treasury guidance which makes clear that council's do not own property and land assets for their own sake. Instead, assets are held for pursuing policy objectives and the valuation of a publically owned asset is based on the interests of society as a whole rather than those of the council alone.

2.2 Local Policy

The Council's Corporate Plan recognises this and sets out how it intends to "develop genuinely engaging and collaborative approaches with citizens for all service design and delivery". These will include:

- Moving beyond council engagement as a transactional approach to more collaborative and empowering relationships with our diverse communities and
- Recognising the role third sector groups' play in engaging our communities and most vulnerable citizens, supporting residents to shape services.

Many funding opportunities previously accessed by the third sector are changing, reducing or stopping as a result of budget reductions across the public sector. These changes provide opportunities for the council to work differently with the third sector, for example, on new approaches to managing rising demand and enabling active citizenship.

The council, in partnership with other public sector providers, recognise the need to support the sector in responding to these challenges, to become more sustainable and better aligned to the changing requirements of citizens and public services.

Community Asset Transfer is one of the methods by which the council can enable and encourage community activity to the benefit of the city as a whole and is supported by the Corporate Property Strategy & Asset Management Plan (see link below). Publication of this policy was a key recommendation of the Brighton & Hove Fairness Commission.

<https://www.brighton-hove.gov.uk/sites/brighton-hove.gov.uk/files/Headline%20report%20-%20Fairness%20Commission.pdf>

The council's HRA Asset Management Strategy (see link below) acts as a link between the Housing Strategy priorities and the housing investment programme. The HRA Asset Management Strategy was agreed in 2016 following extensive consultation and work with residents and, together with the HRA Budget and HRA Capital Investment Programme, aims to balance the priorities of both the council and council housing residents within the context of the Housing Strategy and the Corporate Plan.

3.0 HOW DOES COMMUNITY ASSET TRANSFER WORK?

3.1 The Aim of Community Asset Transfers

The Council's land and property portfolios are held for a variety of different purposes including financial (e.g. commercial portfolios), operational (e.g. civic offices, social care day centres, etc.), heritage (e.g. listed buildings or monuments) and community (e.g. community centres).

For the latter group, the council recognises that third sector management and stewardship can deliver additional benefits to the local community. These may include extended use of the building, thereby increasing the social benefit to users and / or securing additional funding not available to the local authority itself to provide a more sustainable business model.

Benefits to the community include:

- Increasing and improving neighbourhood based service provision; increasing accessibility for local people especially for those with limited mobility or low incomes,
- Bringing a sense of community identity and pride and the potential for increased community cohesion,
- Providing additional jobs, training and business opportunities locally,
- Contributing to physical regeneration
- Increasing confidence, skills and aspirations locally.

Benefits to the council include:

- A more efficient use of a public sector asset – third sector organisations often make extensive use of volunteers and their local knowledge and hands-on management of the asset can result in lower overheads and better value for money as well as more intensive use of the asset,
- Enabling third sector organisations to complement public service provision in ways that are more responsive and better related to local need
- Enabling effective partnerships between the public sector and the third sector to enhance local services.

Benefits to the third sector include:

- Increased sustainability for organisations and increased leverage with other public and private sector organisations – a well-managed asset can provide a third sector organisation with greater financial viability and reduce its dependency on grants,
- Enabling a third sector organisation to apply for funding that is not available to the council and/or even to secure loan finance on the value of the asset
- Facilitating collaboration and resource sharing amongst organisations.

3.2 Community Asset Transfer Principles

Our policy on Community Asset Transfer is underpinned by the following principles:

- Community asset transfer under this policy is not an automatic right. The council is required to maintain a dual role to support the third sector as well as to act as steward of publically owned assets and to derive the best value out of them to the overall benefit of the city.
- Any proposed asset transfer must promote social, economic or environmental well-being within the community and support the priorities and objectives of the council as set out in the city's Sustainable Community Strategy: <http://www.bhconnected.org.uk/>.
- The council will adopt a fair and transparent process to assess and decide community asset transfer applications as set out in this policy document.
- If any proposed transfer will result in a transaction at less than best consideration in strict monetary terms (ie a market rent is not achieved), then the additional social value benefits associated with the proposal will also be considered by the council. These must be clearly identified, assessed and time & value measured within the approved business case and must be monitored and reported to the council in an agreed format to ensure that they are subsequently realised. This requirement to provide social value benefits may be documented within the lease or licence with remedies for the council also documented if the stated social value benefits are not fully realised.
- Third sector organisations seeking an asset transfer will be required to provide details of the organisation's governance, operational and financial arrangements as set out in **Section 5** which will be used to determine that the applicant has sufficient financial backing and experience, or has support in place to assist them in directly managing the asset proposed for transfer.
- Third sector organisations will be required to submit a detailed business case to demonstrate financial resilience and long-term sustainability at least for the period of the proposed transfer or for a minimum of five years whichever is the lesser.
- The council will be as flexible as it can be on the terms of any transfer subject to the overall requirement for it to achieve best consideration. In determining the terms the council will take into account the size of the organisation, excess profits, track record and ability to fund income and/or attract grant funding.
- In the case of a leasehold transfer the council will expect the applicant to be responsible for running costs of the building including utilities, rates, repairs, statutory maintenance and insurance. The council will provide applicants with details of existing running costs that the council is currently responsible for prior to transfer.
- Freehold disposal will not usually be available except under exceptional circumstances, e.g. where freehold ownership is the only available option for the applicant to attract funding or where the transfer is part of a larger development scheme.
- The council will not guarantee exclusivity in any transaction or applications on a first come first served basis.

4.0 WHAT IS THE COUNCIL OFFERING?

4.1 Community Assets

For the purpose of this policy Brighton & Hove City Council is including property & land assets designated as being 'Community Assets' on our asset list as defined in **Section 1.2.2** above.

Interested third sector organisations may also seek guidance from the council's Estates Management Team on other council owned assets on the list with the exception of property & land designated as 'non-operational' which form part of the council's commercial estate. Contact details are provided in **Section 7.1**.

4.2 Tenure

A community asset transfer can take many different forms depending on the nature of the service to be provided, the intended building and the need for the third sector organisation to secure external funding. Options included in this policy are:

- **A Licence to Occupy** – this will normally allow the organisation to have shared use of a building with other groups or individuals for the length of the licence. Running costs and responsibilities will generally be shared between the various occupiers and the building owner.
- **A Short Lease** (up to 7 years) - a leasehold arrangement will provide the third sector organisation with exclusive use of the asset for the duration of the agreement with the expectation that they would take responsibility for the running costs. At the end of the lease the asset will be returned to the council in no worse condition than originally transferred. The lease will include a provision for the asset to return to the council before the end of the lease in certain circumstances which may include bankruptcy, corruption or the originally envisaged benefits not being achieved.
- **A Long Lease** (7 years and over) – as above but subject to a viable business case and appropriate Officer Delegations
- **A Freehold Disposal** - this will be considered in exceptional circumstances only and would result in full ownership and full responsibilities for the asset being permanently transferred to the organisation. Due to the additional risks this could create for both the council and the organisation, this is not the council's preferred method for CAT and will only be considered in exceptional circumstances. Freehold transfer may also require additional Committee approval.

5.0 HOW DO THIRD SECTOR ORGANISATIONS APPLY?

5.1 Who Can Apply?

Applications for the transfer of a community asset under this policy can only be made by a recognised third sector organisation as defined in **Section 1.2.3** above. Evidence of the applicant's status will be required as part of the application process described below. To make best use of both the organisation and the council's time the process has two stages.

5.2 Stage 1: Expression of Interest

An expression of interest will be made by the applicant to provide initial information on their organisation and the building or land asset they are interested in. This will be used by the council to determine whether a valid application for a community asset transfer is likely and to ensure that the organisation does not waste time completing a full application if they do not meet the initial basic requirements. See **Appendix A** for the Expression on Interest form to be submitted at Stage 1. Information required at this stage includes:

- Confirmation that the applicant is a third sector organisation as defined in **Section 1.2.3** above. The applicant may be subsequently required to provide additional evidence of this before the application can progress.
- Summary details of the third sector organisation, where they are based, their purpose, their service offer and outcomes they are expecting to achieve.
- Details of the council owned land or building asset that the organisation is interested in including brief details of the lease they would like to use.
- An explanation of why the organisation is applying for a Community Asset Transfer.
- A declaration to confirm that the applicant organisation has read and understood the CAT Policy, can evidence their support and promotion of the council's vision, values & objectives, is able to provide a robust and sustainable business case and has the experience or the necessary resources to manage a building.

The Expression of Interest (EOI) application will be assessed by the council as described in **Section 6.1** below. The ward members where the asset is located will also be consulted on the EOI and if the asset is a HRA asset the Chair of the Housing and New Homes Committee will be consulted.

The applicant will normally be notified of the initial decision within fifteen working days of the council receiving the EOI application. The ward members will also be notified and the Chair of the Housing and New Homes Committee if a HRA community asset.

5.3 Stage 2: Full Transfer Application

Once a third sector organisation has been notified of a successful Stage 1 Expression of Interest application, it can proceed to a full application as Stage 2. See **Appendix B** for the form to be submitted.

Additional information required at this stage includes:

- Full details of the organisation's intended use of the building and how it can be used to raise additional funds and achieve additional social value aligned to the council's aims & objectives.
- Full details of when these benefits will be achieved and how they will be monitored & reported to the council.
- Evidence to support a local demand for the service.
- Full details of the organisations experience in managing property and providing the intended service including governance & constitution arrangements.
- Full details of the applicants transfer requirements and lease details.
- Full details of the organisations business case.

- Identification and mitigation of any risks associated with the transfer. A list of some of the more common risks is provided as **Appendix C**.

The Full Transfer Application (FTA) will be assessed by the council as described in **Section 6.2** below. The applicant will normally be notified of the decision within fifteen working days of the council receiving the FTA.

The ward members will also be notified and the Chair of the Housing and New Homes Committee if a HRA community asset.

6.0 HOW ARE APPLICATIONS ASSESSED?

6.1 Stage 1: Expression of Interest Assessment Criteria

On receipt of an Expression of Interest form (see **Appendix A**), a cross-council officer group will assess the content to establish whether a transfer is appropriate and meets the initial, basic requirements of this policy. This initial assessment will confirm that:

- **Section C:** The asset to be considered for transfer is council owned and meets the definition of 'Community Asset' stated at **Section 1.2.2**. The council will check that the building is available and able to be transferred.
- **Section C:** The initial agreement terms requested appear reasonable and commensurate with the service proposal.
- **Section D:** The applicant represents a third sector organisation as defined in **Section 1.2.3**.
- **Section E:** The applicant has clearly articulated what services, activities & facilities they will provide from the asset and that these appear to offer additional social value to the local community.
- **Section F:** The reasons stated for a transfer are valid and that no other alternative will offer the same benefit.
- **Section G:** The applicant is able to provide details of how the service will support the council's Corporate Plan objectives if the application proceeds.
- **Section G:** The applicant is able to provide a full financial business case if the application proceeds.
- **Section G:** The applicant is able to provide details of building management expertise if the application proceeds.

Following assessment of the Expression of Interest by the council, the applicant will be advised that their application has either been:

- **Approved** – The applicant may proceed to submit a full CAT application.
- **Rejected** – The application does not meet one or more of the essential criteria required. Feedback will be provided listing the reasons why the application has been rejected.
- **Pending** – The application is incomplete or insufficiently detailed. The applicant will be advised to submit additional information in order for an assessment to be made.

6.2 Stage 2: Full CAT Application Assessment Criteria

On receipt of a Full Transfer Application form (see **Appendix B**), a cross-council officer group will assess the content to establish whether a transfer is appropriate and meets the requirements of this policy. This initial assessment will confirm that:

- **Section D:** The applicant has clearly articulated the local services, activities & facilities they will provide from the asset and who these are intended for.
- **Section E:** The intended use of the building is suitable and the applicant has demonstrated how they are going to manage the building in the most sustainable way (see **Appendix D** for further guidance) and maximise utilisation.
- **Section F:** There is evidenced demand and/or need for the service in the local area.
- **Section G:** The proposed lease length is acceptable to the council and any specific lease requirements are reasonable.
- **Section H:** The Asset transfer promotes social, economic or environmental well-being, adds social value and supports the council's objectives.
- **Section I:** Milestones have been provided for the achievement of the social value benefits with reasonable timescales given the length of the intended lease. The organisation has confirmed that they will provide an annual report to the council.
- **Section J:** The organisation has demonstrated a successful track record or can point to expertise they have that will give sufficient reassurance they are prepared for the responsibilities of their lease.
- **Section K:** Risk mitigation proposals have been identified and appear to be suitable and reasonable.
- **Section L:** A robust business case has been provided including plans for maximising opportunities for sustainable inward investment such as fund raising, grants, social enterprise, etc.
- **Section L:** The organisation has a healthy or sustainable financial position and any fundraising approach appears viable. The organisation demonstrates good governance and a suitable legal structure.

Following assessment of the Full Transfer Application by the council, the applicant will be advised that their application has either been:

- **Approved** – The transfer can proceed subject to agreement of lease conditions.
- **Rejected** – The application does not meet one or more of the essential criteria required. Feedback will be provided listing the reasons why the application has been rejected.
- **Pending** – The application is incomplete or insufficiently detailed. The applicant will be advised to submit additional information in order for an assessment to be made.

6.3 Assessing ‘Social Value’

Disposals at less than best consideration may only be justified if they involve indirect benefits to the council in pursuit of wider strategic objectives and outcomes such as the disposal or transfer of a property interest to a third sector organisation designed to achieve social and economic benefits (see **Section 1.2.5** above for further guidance).

In such cases, if the council is to meet its legal obligations (and avoid legal challenge), it is important to be able to demonstrate that a consistent, transparent and well-structured approach has been taken and that value for money will be obtained. The aim of this policy is to provide sufficient information to ensure this.

Key essential information will include an assessment by the council of:

- a. The best consideration that would otherwise be receivable under normal market conditions,
- b. The consideration likely to be received on the proposed terms and conditions of the application and
- c. Any direct and indirect benefits associated with the disposal, expressed in monetary terms wherever possible.

The focus then turns to whether the benefits assessed at **c.** match or exceed the under-value, i.e. the value at **a.** less the value at **b.**

The council may also make an assessment of the current and likely ongoing holding and opportunity costs and any benefits to the council arising from the retention of the asset, to provide a balanced view about the costs and benefits to the authority of transfer.

Successful applicants will be required to sign an undertaking to monitor that the social value proposed in their application is being achieved and to provide a report of their findings to the council at least annually. The council reserves the right to review the terms of the transfer if the organisation is failing to meet the social value elements of the agreements.

6.4 The Decision

Each application will be evaluated by the council’s Estates Team in accordance with their delegated powers and the guidance in this policy document. The Estates Team will be guided by the council’s Community, Equality & Third Sector team with additional input from relevant council teams who benefit from or may be impacted by the application including the HRA Asset Manager in respect of HRA assets. Feedback from ward members will also be considered.

With the exception of HRA assets (see **Section 1.2.7** above), the council will aim to notify the applicant of the decision for each stage of the application within fifteen working days from receipt of the application pack.

Where the decision falls outside of the Officers delegated powers (e.g. in the case of freehold transfers or long leases) or involves an HRA asset, further approval may be required including from the relevant Committee, which will increase the time for a decision dependent on the Committee timetable. Applicants will be notified about additional approvals and likely timescales. These are likely to vary depending on the asset and application.

APPENDIX C: RISK ASSESSMENT

Community Asset Transfer applicants and the council should be aware of the risks that can be associated with a transfer, the most common of which are summarised below. Third sector organisations are required to identify risks specific to the proposed transfer and to explain how they intend to reduce or remove these as part of the application process (see **Section 5.0** of the CAT Policy).

Identified Risk	Possible Mitigating Actions
1 The organisation does not have the capacity or skills to take over and manage the asset.	Organisation to carry out a skills gap analysis to identify where capacity needs to be built internally or bought in.
2 The organisation does not have the resources to adequately maintain and run the asset.	Council to provide details of current running costs and condition. Organisation to confirm how they will meet statutory and property management obligations.
3 The organisation does not have the financial backing to pay a market rent for the premises.	The organisation will provide the council with details of added social value they intend to create through the transfer that will mitigate a reduced rental income. This will be assessed by the council during the CAT application stage.
4 The organisation does not meet the added social value requirements of the transfer.	Anticipated benefits to be documented prior to the start of the transfer process and monitored and regularly reviewed by both parties.
5 Confusion of roles and responsibilities between the organisation and the council.	Roles & responsibilities are detailed in the transfer agreement.
6 The organisation misuses the asset, under-utilises the asset or allows it to fall into disrepair.	Transfer agreement will allow the council to review use of the building with a remedy to transfer the asset back where considered necessary.
7 The organisation becomes insolvent or ceases to operate.	The council will transfer back the asset under the transfer terms.
