

## 4-Year Integrated Service & Financial Plans Proposals for 2018/19 to 2019/20

The 4-Year Integrated Service & Financial Plans (ISFPs) in this appendix provide the following information for each service area:

- Service Area: Services are grouped under major divisions of service and then by Service Section. A brief description of the service area is also provided.
- Gross Budget (2017/18) – this is provided for contextual (scale) information only and is the current total expenditure for the service including staffing, transport and premises related costs, supplies and services, contract or provider costs, grants and other transfer payments;
- Net Budget (2017/18) – also provided for contextual information, this is the current Gross Budget less any income from fees and charges, specific government grants, rents, or external/partner funding (e.g. health service funding);
- Budget FTE (2017/18) – further contextual information indicating the current Full Time Equivalent (FTE) staffing budget for the relevant service area;
- Rationale for Strategy – provides a brief description of the service's main objectives and the strategic approach adopted for improving value for money or reducing spending over the 4 year period;
- Service & Financial Proposals – a brief description of the measures that will be undertaken to achieve savings over the 4 years; often with more detail provided for 2018/19;
- Delivery Risk and Impact on Outcomes – identification of potential risks to delivery and/or the level of saving achievable and a summary of the potential impact of the service strategy on outcomes for customers, service users, clients, partners and other stakeholders as appropriate;
- Saving 2017/18 – for information only, this identifies savings already delivered or being delivered in the current financial year i.e. Year 2 of the 4 Year Plan;
- Savings 2018/19 to 2019/20 – proposed amounts to be saved over the remaining 2 years of the 4 Year Plan. The Council will only formally approve the proposals for 2018/19 (highlighted) for which there is a statutory requirement to set and approve a budget and Council Tax.

## Families, Children & Learning Directorate

### Services and Responsibilities

Families, Children and Learning brings together different services for children and young people from birth up to the age of 25, together with services for adults focused on skills & employment and learning disabilities. Much of the education and special educational needs provision is funded through the ring-fenced Dedicated Schools Grant (DSG). Although this budget strategy is focused on General Fund spend there are also parallel proposals in relation to the DSG as there is a significant pressure on the budget following the extension of support for young people with Special Educational Needs & Disabilities (SEND) up to the age of 25 and also parallel pressures on school budgets.

The main area of General Fund spend relates to the placement costs for children and young people in care and adults with learning disabilities (LD). The LD budget transferred across on 1 November 2016 in order to ensure improved pathways between children and adult services. It is a large net budget of just over £30m and includes a supported employment budget, part of which supports a team supporting adults with learning disabilities which work closely with colleagues in the Education & Skills branch. There are significant pressures on this budget and it is currently overspending in relation to placement costs within the Community Care budget arising from residents requiring more support. Following a procurement exercise, 4 council run supported living establishments for adults with learning difficulties transferred to the Grace Eyre Foundation, a well-respected local charity in June 2017.

In relation to children, the number of children with child protection plans and being brought into care nationally continues to increase. Over the last 12 months however, the numbers in Brighton & Hove have been reducing. This has led to cost savings, but is at risk if there is a high profile safeguarding case either nationally or locally. In addition, both locally and nationally there has been an increase in the number of adolescents requiring intensive support, including high cost residential placements. In part this is related to the greater focus on meeting the needs of young people who are vulnerable to exploitation. There is currently a significant issue regarding foster placement sufficiency, which is having an adverse impact. This is a national issue resulting from the significant rise in the number of children in care and the impact locally is that when placements are required, the lack of options mean than placements are made on the basis of availability rather than need. This can result in children being placed in more expensive provision.

Our vision is for a directorate that is ambitious and works more closely with partners. We want all of the city's families and children to be happy, healthy and safe, fulfilling their potential. Over the last few years, services have been redesigned in order to improve efficiency and reduce costs and this will continue in future years with proposals to stop doing some things, redesign some services and reduce the demand for more intensive and expensive services. Inevitably, this requires difficult decisions in balancing untargeted, non-statutory support with preventative, statutory and safeguarding provision.

There are 3 key branches in the directorate together with a performance and safeguarding service that ensures that we meet our duties and provides quality assurance. The key branches are as follows:

### Education and Skills £7.051m

This service area includes:

- Early Years and Family Support (including Children's Centres)
- School Organisation
- Education Standards and Achievement
- Skills, Employment and Youth
- Virtual School for children in care
- Able & Willing Supported Employment Service and the Print & Sign service

**Health SEN and Disability Services £35.773m**

This service area includes:

- Educational Psychology, School Wellbeing Service, Behaviour and Learning Support Services
- Special Educational Needs
- Social work and early help support for children with a disability
- Residential, short break and respite provision for children with a disability
- Assessment, social work, behaviour support and health services for adults with learning disabilities
- Council residential and day activities services for adults with learning disabilities

**Safeguarding and Care £38.475m**

This service area includes:

- Fostering and Adoption Services
- Children in Need and Child Protection
- Children in Care and Leaving Care services
- Adolescence and Youth Offending Services
- Front Door for Families which includes MASH (Multi Agency Safeguarding Hub)
- Early Parenting Assessment Programme & Looking Forward project
- Contact Service
- RuOK? – substance misuse service for adolescents
- Functional Family Therapy

**Users of Family Children & Learning Services**

The directorate provides a range of different services from universal to those targeted at small groups of people with very high levels of need and/or where we are required to fulfil a statutory duty. Some of the key groups of users we interact with are as follows\*:

32,376 children attend city schools; (May 2017 Census)

8456 parents/Carers applied for school places between September 2016 and August 2017

12,703 contacts relating to 6,705 children were received by the Multi Agency Safeguarding Hub/Front Door for Families this year, of these 2,894 relating to 1,509 children were safeguarding concerns that required follow up work;

5,498 children have been identified as having a special educational need or disability (May 2017 census);

3,947 children are eligible for free school meals; (May 2017 Census)

3,654 children with additional needs are supported by the Inclusion Support Service;

1,671 children attended a council Children's Centre in the last quarter;

1,893 children are open to our social work service, of these, at September 2017, 372 are on a child protection plan and 424 have been brought into the care of the Council;

989 children have an Education Health & Care plan (or statement of Special Educational Needs) (May 2017 Census);

1,429 families have been identified locally through the national Troubled Families Programme;

560 children attend a council nursery

398 children receive supported bus travel to school and a further 470 children receive free bus passes;

519 young people were supported by the Youth Employability Service;

175 children are electively home educated in September 2017;

118 homeless families were supported by the directorate;

132 foster care families are supported by the directorate (September 17);

95 families who have an adopted child were supported and last year;

33 children moved out of care into adoption (year ending September 17)

A further 244 children are supported through a special guardianship order.

Services for children with disabilities	Residential, respite and short breaks.	1,752	1,225	47.8	The LA will continue to meet its full statutory duty towards children with SEN and disabilities and remains committed to working with parents, young people and all in partnership. The aim is to find efficiencies while extending the access of families to short breaks and respite through effective re-organisation and a reduction in agency spend (see below). The new integrated special school hubs will offer an extended range of short breaks outside of school hours more efficiently with increased access for more families. We will also be offering through the hubs a better offer of support to help families cope at home where children have	Review of use of in-house provision and respite to extend the range of options for parents with more emphasis on extended day, evening and weekend activities. Overnight respite would still be available for those in most need and where children require shared care. Further review of contracts with the Community and Voluntary Sector for respite and short breaks to see how they could extend their reach while making greater efficiencies. While every effort will be made to make savings through efficient service redesign within current staffing, there may be a loss of posts for care staff. Given the difficulties in recruitment however this is likely to be achieved by redeployment rather than job losses.	Opportunities will be impacted. Agency disability	Independent and non maintained children's homes, special schools and boarding school placements	1,186	832	-	The direction of travel in both Children' and Adults Learning Disability Services is to enable families to stay together within the City as far as possible by ensuring a comprehensive range of quality integrated services across education, health and care/ respite to meet needs locally. This in turn prevents the need for expensive independent provision at a distance from the City. The strategy also aims to empower families by a shift in provision towards Direct Payments so that they can purchase what they need in terms of support, with help and advice provided for them to do this.	The reorganisation of special school provision into new specialist hubs will offer integrated education, health, care, respite and extended day services on-site with closer working with the children's homes at Drove Road and Tudor House. This will provide a quality alternative to private and residential provision that keeps families together and reduces the cost of expensive out of City alternatives and taxi transport.	Delivery Risk: Reliance on positive impact of the new practice model changes and anticipated downward trend on agency placements.  Impact on Outcomes: Impact on children and families will be mitigated by a considered restructure of residential provision and a rebalancing of budgets and to increase funding for Direct Payments. Greater provision of full time residential education and care will help keep families together.  See EIA 1	510	150	60

	Adolescent Mental Health Services (CAMHS)				comes from the Dedicated Schools Grant. Currently only the service for children with literacy needs/dyslexia is traded with schools but there is scope for this to be a larger element. There is a budget saving of £50K from the General Fund in 2018/19 in a service with a total budget of over £3M (including DSG funding). This saving could be achieved by the loss of the equivalent of 1 teacher or 1-2 other professional specialist posts. However the potential loss of schools' 'exception funding' (currently subject to consultation with schools) and significant savings to be found in the High Needs Block of the DSG means the service will need to expand its traded element with schools from 2018/19 onwards. If schools are unwilling to purchase the traded element, there is a risk to current staffing levels as yet to be determined.

The project also reviews care packages to see if they are still needed and being delivered in the best and more efficient way. In addition further efficiencies will be sought from all council run provision. We are developing a more personalised approach to our clients, including close working with housing colleagues. Additional support has been provided to carry out re-assessments of the support needs of our clients. In terms of context there are currently 833 adults with learning disabilities receiving support from the community learning disability team, ranging from direct payments through to full residential care.	The savings achieved from an anticipated reduction in the number of clients in higher cost provision will however be less than the additional funding made available for this budget to respond to the increased unit costs of provision. This is currently estimated to be approximately £2m and so the overall budget will increase	demands equate to additional costs of £3.223m for 2017/18. Savings can only be achieved by accessing local accommodation. ## Health and Adult Social Care Directorate

### Services and Responsibilities

The directorate is responsible for discharging the council's statutory responsibilities in relation to the provision of Adult Social Care to meet eligible need, legal duties to keep people safe from harm, safeguarding people whose liberty may be deprived and delivering our Public Health duties and functions. The Directorate provides a range of support to adults within the city and their carers. These include residential/nursing care, support packages for those with complex needs and universal, preventative support aimed at keeping people well and independent for longer.

In 2016/17, Adult Social Care managed the following activity:

- 5,034 new requests for social care support;
- 1,458 of these new requests resulted in provision of long term funded care services. Others received short term support e.g. re-ablement or end of life care, signposting to community services or ongoing low level support e.g. issuing equipment;
- 2,056 carers supported;
- 2,085 Deprivation of Liberty Safeguards applications (these numbers continue to increase; 998 applications received in the first 6 months of 2017/18);
- 772 Safeguarding enquiries were carried out.

During this period we provided long term funded care services for 3,601 adults. This support was provided in the following ways:

- 1,809 adults received domiciliary care in the community, this figure does not include those people referred into Homefirst, a pilot Discharge to Assess programme initiated midway through 2016/17 jointly funded with the CCG focussed upon getting patients home from hospital as soon as they are medically stable, which is subject to separate evaluation;
- 1,276 adults received residential or nursing support (529 nursing care placements and 747 residential care placements). The numbers of residential and nursing placements increased between 2015/16 and 2016/17 but the numbers have since plateaued as the service continues to support people to stay in their own home with a consistent reduction in permanent residential placements now coming through as an emerging trend.
- 516 adults were in receipt of care services funded via a Direct Payment;
- 252 adults received day care support.

## Economy, Environment & Culture Directorate

### Services and Responsibilities

The Economy, Environment & Culture directorate provides services that aim to maintain an attractive, sustainable and well run city for residents, business and visitors. The directorate includes the following services:

- **City Development & Regeneration** – Leading the council's work with Greater Brighton and city partners to develop a strong and prosperous and sustainable economy. Delivering major regeneration and projects, Planning and Building Control services, and developing new affordable homes through the Living Wage Joint Venture and New Homes for Neighbourhoods Programme.
- **City Transport** – Maintaining, managing and improving the city's transport network & highways infrastructure, including the delivery of major infrastructure projects working closely with Department for Transport and Coast to Capital Local Enterprise Partnership (LEP). Effectively regulating traffic management and parking services to deliver reductions in congestion and improvements in air quality, management of surface water flooding, sea defences and coastal structures
- **City Environment** – Delivering a modern commercial approach to recycling, waste and street cleaning services with a focus on getting basic service delivery right, income generating opportunities, rethinking the management of parks and opens spaces, including the delivery of the Stanmer Park Masterplan, sport and leisure facilities, outdoor events and seafront management.
- **Property Services** – Leading the council's property strategy, commissioning and delivery of corporate and commercial property services with an emphasis upon an investment strategy that delivers new revenue streams from our assets and keeping the council's operational assets safe and fit for purpose. The council's property and land portfolio includes operational assets such as council offices, town halls, heritage, schools and leisure centre assets and commercial properties and agricultural farmlands.
- **Cultural Services** - Leading the future of the city's unique arts, cultural and tourism offer and expanding this for a wider city region. Establishing a new Cultural Trust for the Royal Pavilion and Museums and progressing the Brighton Waterfront Project to secure a new conference centre and venue for the City. The Royal Pavilion and Museums (RPM) comprises five sites open to the public and eight other historical sites/ monuments. Our tourism and visitor services include the management of the Brighton Centre and our 'Visit Brighton' destination marketing services.

### Strategy and Key Proposals

Over the past year, services in the Economy, Environment & Culture directorate have delivered £4.7m (15.0% of net budget) savings. The Integrated Service & Financial Plan proposals for 2018/19 to 2019/20 set out savings proposals of £3.635m (13.7% of net budget), of which over half, £2.170m (8.2% of net budget), are within 2018/19. These will be achieved through a mixture of commercial approaches to generating income, establishing alternative delivery models, service redesigns and transformations, changes to commissioning, and other proposals.

The budget strategy focuses upon improving the efficiency of services to maintain the city's infrastructure and environment, whilst working increasingly with partners, communities and businesses to find alternative ways to share environmental responsibilities, generate new income streams, reduce costs, and become financially more self-sufficient.

The directorate provides strong civic leadership and place making to enable investment and economic growth and city infrastructure which is clear about the benefits to local people, working with Coast to Capital LEP and Greater Brighton city region and South East 7 (SE7) partners to attract external investment, increase economic resilience, improve transport connectivity and local access to jobs, apprenticeships and housing.

Long term capital investment to renew and strengthen the infrastructure of the city will continue, to ensure effective management of the highways network and improve air quality, along with the delivery of major regeneration projects to bring about quality new business space and affordable housing whilst generating income from land and property assets and increasing business rate and council tax returns.

The directorate also plays an important role in supporting the arts, culture and heritage sectors of the city. The jobs in the cultural, creative and tourism sectors collectively make up nearly a third of the city's employment and the council owns much of the city's essential heritage and cultural infrastructure.

Our property services will continue the Corporate Landlord approach to make best use of the council's operational and commercial portfolios through redevelopment and regeneration opportunities. It continues to evolve the commercial portfolio through a rebalancing strategy and provide an increasing return on rental streams in the long term and support the council's modernisation programme enabling service re-designs and ensuring capital receipts are maximised in support of the council's capital investment programme and Medium Term Financial Strategy.

Benchmarking with Bristol, a comparable city with similar regeneration goals and focus on sustainable regeneration, has shown that Bristol direct spend on major projects is considerably higher.	As well as investing in the future of Brighton & Hove and delivering economic growth for the City, new income is generated through completion of regeneration schemes through new business rates, council tax revenue and New Homes Bonus (N.B relates to projects that are additional to assumptions in MTFS). By way of an example, Circus Street has started on site, and Preston Barracks was granted consent at the end of September 2017.	Delivery Risk: With several major regeneration projects progressing and significant capital funding allocated for projects through the City Deal and Growth Deal there is a risk to delivering a large scale complex regeneration programme with a small team of 4 project managers. Tourism	Marketing & Visitor Services	1,945	1,580	12.4	Full business case and option appraisal has been completed reviewing remaining in-house, outsourcing or shared service models. Recommendation is to retain the service because this option would achieve the savings targets identified in the 4 year savings plans, continue to provide the city and visitors with an impartial service, build on the good relationships with businesses across the city and allow a joined up approach with other council services.	Savings of £0.110m has been delivered from the operating costs budget for 2016/17 and service redesign delivered a saving of £0.080m for 2017/18. No further savings identified for 2018/19 as the 4 year savings target was delivered in the first two years.	Delivery Risk: Reduced capacity to deliver 'Visit Brighton' visitor services could lead to the council being perceived as not promoting and facilitating business in the City. The Visit Brighton network of member businesses helps to foster the relationship between the council and businesses within the city. The visitor economy is estimated at £815m and supports over 21,500 jobs. Any reduction in tourism services could negatively impact on these figures and the wider economy of the city.  Impact on Outcomes: There is an inherent risk of increasing the cost of the VisitBrighton Partnership with a large % increase in year 1, which could have an adverse effect on partners re-joining the Partnership scheme.	80	-	-

Customer Services	Customer Service Centres (CSC), Reception/ Switchboard & Security	295	86	18.5	A new concierge model of service delivery. The overall rationale is that the 'meet & greet' and initial enquiry facility provided by the Customer Service Advisors can be removed as a result of services who currently use the CSC taking an end-to-end approach to working with customers which removes the need for CSC staff to act as the first point of contact. The proposals have been informed by the CSC Business Process Improvement (BPI) review.	A changed model of delivery has been implemented. 'Channel shift' (e.g. from face-to-face contact to on-line) is expected to reduce the number of people using services face to face and the development of neighbourhood services and hubs will provide other access points.	Delivery Risk: Knowledge and skills of concierge staff will be critical to effective delivery. Space to accommodate duty staff at Hove Town Hall CSC will be necessary.  Impact on Outcomes: Design of end-to-end processes and effective channel shift should minimise any impact on customer satisfaction. ## Neighbourhood, Communities & Housing (NCH)

### Services and Responsibilities

The NCH Directorate covers the following areas:

- Housing (council housing, Housing Strategy, Private Sector Housing, Temporary Accommodation and Homelessness, Travellers)
- Libraries
- Regulatory Services (Environmental Health, Licensing, Trading Standards and Emergency Planning)
- Communities, Equalities & Third Sector
- Community Safety

The directorate focuses on the issues affecting neighbourhoods, communities and housing aiming to be a landlord of choice, develop closer and better relationship with communities, drive improvement in customer satisfaction and develop the council's working with public service partners. This includes delivering a step change in partnership working with the third sector and enhancements in volunteering opportunities. The directorate has responsibility for:

- Delivering landlord services to council housing residents and maintaining the council's housing stock;
- Improving conditions in the private rented sector and delivering adaptations to help people live independently in their homes;
- Providing advice and support to prevent homelessness, and temporary accommodation for statutory homeless households;
- Delivering statutory library services across the city and Developing libraries as neighbourhood hubs;
- Closer engagement with local communities in the co-production of neighbourhood focused enforcement services;
- Leading the council's 'Prevent' agenda;
- Delivering volunteering opportunities where possible across common platforms with other public service providers;
- Improving customer satisfaction, complaints resolution and neighbourhood well-being across council services;
- Deepening the understanding across all services of city demographics and the practical measures to address communities of interest and neighbourhoods in need.

### Users of NCH Services

A selection of service user statistics and other service statistics are provided below for contextual information:

- Landlord to approximately 11,500 council tenants and 2,500 leaseholders
- Council tenant overall satisfaction rating of 81% and customer service satisfaction rating of 85% (independent STAR survey 2016); 57,000 telephone calls a year
- Annual tenant rents and service charges of £58m per year; capital programme of around £23m a year; let approx. 550 homes and agree 150 mutual exchanges a year, almost £10m investment in new homes in 2016; average of 93 repairs every calendar day
- Housing Options teams see approximately 4,000 homeless cases per year, of which around 1,000 result in a statutory homeless application 420 were accepted as statutory homeless this year. 15,000 phone calls and 9,000 contacts in the customer service centre; 1,000 referrals for supported accommodation that require assessment and recording on waiting list.
- Temporary accommodation– 1,950 households in temporary accommodation of which 1,500 are managed in house. Turnover of around 500 lets pa – almost equivalent to the whole council housing stock.
- Homemove – the Housing Register has reduced from over 26,000 down to 18,431 and the service still has a significant number to re-assess against the new policy, which will hopefully reduce this further. Housing continues to receive a high number of applications and reviews against people removed from the register.
- Currently license 3,352 Houses in Multiple Occupation (HMOs) across the city;
- Adaptations team receive at least 40 referrals per month, investing £2.2m (HRA and GF) in 405 major housing adaptations (2016/17);

## APPENDIX 6

- Community Safety, Anti-Social Behaviour and hate crime – 621 reports and enquiries dealt with in 2015/16. The Casework Team dealt with 1,375 witness and victim engagements, and 352 perpetrator engagements;
- Domestic violence and abuse: 1,462 referrals for domestic violence and abuse, 200 referrals for sexual violence;
- Three year investment programme in the community and voluntary sector supporting circa 140 groups annually and 40 with three year strategic grant.
- Over 1.4 million visits to libraries last year (2016/17), and over 1 million library items were lent out to borrowers.
- Over 1.2 million website user sessions on Libraries pages on the website, and there were 214,333 online transactions in libraries in 2016/17
- Libraries services achieved 93% satisfaction score from last year's customer survey.
- 1250 licensed premises in the city.
- Trading standards aim to save over £30,000 per annum for vulnerable consumers and small businesses in the City
- 1,112 pest control treatments and 1,673 revisits to these jobs;
- 2,411 noise complaints including both domestic and commercial requiring investigation;
- 147 work place accidents investigated;
- 298 investigations in relation to poor working conditions;
- 1,415 food premises due for inspection this year.

Housing Services	Homelessness -Housing Options and Homemove - supporting vulnerable households	1,298	1,258	36.7	Housing Options advice is a statutory duty meeting priorities of reducing homelessness. Outsourcing has been unsuccessful elsewhere. Medium cost - benchmarked independently. Although staff costs are high there is also a very high number of assessments completed relative to the number of households in the city (3 times our comparator group) so the unit costs per assessment are below median. Any further reduction of the Housing Options service may adversely impact on our ability to prevent homelessness. This service includes the Homemove Team who administer the Housing Register.	No savings for 2018/19 due to the level of savings made in 2017/18 and the need to deliver the new Homeless Reduction Act 2016 duties.  2017/18 Saving of £0.346m to increase work on prevention and reduce TA numbers by 100. Service redesigned to generate staffing efficiencies - of a further 1fte per annum over the next 2 years. Main risks are: rising demand for adaptations; budget pressures as a result of not being allocated Better Care capital in line with Gov't allocation via DFG; managing demand and expectations whilst reinforcing a preventative approach, reducing the volume and capital expenditure on reactive adaptations in both council and private sector housing.  Impact on Outcomes: Service redesign focussed on prevention and alternative investment options to reduce pressures on Better Care Budget.			
Temporary Accommodation & Allocations	Temporary Accommodation	19,494	2,468	33.4	External benchmarking shows that the costs are low. Statutory duty except for those households where accommodation is provided for Adult Social Care (ASC) teams and children's services. The budget provides both emergency and short term temporary accommodation through private sector leases, a framework of qualified providers and nightly spot purchases. Procurement approach being sought to access accommodation	Savings in 2018/19 include the potential development of new in-house units through commissioning a council housing stock review to deliver conversions of existing under-used or unused buildings or spaces into Temporary Accommodation and thereby saving an estimated £0.200m on more expensive spot purchase accommodation. Efficiencies in managing temporary accommodation will enable us to deliver savings of £68k in 2018/19 .	Impact on Outcomes: No impact on outcomes anticipated. This saving is predicated on new homes being available for TA at Oxford Street and Stonehurst Court, both of which are currently being refurbished (estimated 22 new homes). Currently Oxford Street plans have been delayed due to structural issues. Therefore £0.100m of this saving is at risk of delay and therefore there is a risk of a short term annual overspend in 2018/19 of £0.100m.	816	268	6

Travellers	Travellers	565	506	5.0	No benchmarking information available. New site and reinstatement of transit site should reduce the number of unauthorised encampments (UAEs) and associated costs, provide opportunities to increase income from the site and reduce maintenance costs on refurbish site. Savings from 2018/19 are from increased income from the sites and reductions in staff.	2018/19 savings are from increased income from the sites and reductions in staffing of 1 FTE. During 2016/17 and 2017/18 efficiency savings have been made from reducing waste removal costs and reduced legal fees for unauthorised encampments as a result of increased provision.	Delivery Risk: UAEs and movement of travellers are unpredictable and while a range of measures can be put in place to deter them there is no guarantee that they will reduce.  Impact on Outcomes: If UAEs fail to reduce as predicted we could see a delay in evictions as we will not have sufficient staff to process court applications. However we would not consider the risk of this to be high.	21	50	40

Libraries	Hove Library	incl. in other lines	incl. in other lines	incl. in other lines	Current building is expensive to run, with high staffing and running costs, and needing extensive and ongoing maintenance and repairs. Following the rejection of the proposed move of Hove Library to Hove Museum, a new strategy for Hove Library is being developed.	2018/19 proposals: To achieve an additional £45k in income as a result of letting parts of Hove Library building to external users.  As a result of the PR&G Committee decision in July 2016 to change the agreed Libraries Plan proposals to relocate Hove Library, the anticipated savings need to be found through a reconfiguration of Hove Library spaces to increase income generation potential and reduce running costs. This includes proposal to close Hove Library on Sundays to reduce staff and operational costs.	Delivery Risk: 2018/19: Still awaiting confirmation that café provider will be taking on Hove Library provision. Delivering savings in the Carnegie building location is much harder than the original Libraries Plan proposals to relocate the service. Risk that projected income targets and savings targets will not be achieved in this location. Impact on Outcomes: The PR&G Committee decision to change the agreed Libraries Plan proposals to relocate Hove Library, could have an impact on the rest of the library network unless mitigating actions are taken to reduce the high costs of running library services in	60	45	27

Libraries	Income Generation	<i>incl above</i>	(453)	-	<p>Limited scope for income generation as Libraries are a statutory service with restrictions on what can be charged for. Traditional income (fines, AV hire, reservations) is reducing. Funding diversity includes: commercial income, commissioning income, grant funding, and fundraising. Collecting charges more efficiently and increasing commercial income. Raising more through donations and attracting grant income. Need to find additional 15k to cover loss of traditional income, plus 10k inflation target, before achieving extra 10k, so in reality increase in income of 35k needed over previous year's targets in order to achieve £10k.</p> <p>2019/20 proposals: Continue with diversification of funding programme to achieve an additional £20k.</p>	<p>Delivery Risk: Dependent on library visitor trends and market conditions. ## Finance & Resources (F&R)

### Services and Responsibilities

The Directorate covers the following areas:

- Finance:
  - Supports over 250 budget managers and 68 schools
  - Manages over £100m cash balances and investments and over £0.5 billion money market transactions annually
  - Procures and negotiates over £1.8 billion insurance cover through premiums (£1.6m pa)
  - Provides contracted financial services to South Downs National Park and trusts
- Procurement:
  - Supports procurement of goods and services of circa £300m
  - Supports circa 250 contract managers together with Legal Services
  - Manages and authorises waivers of Contract Standing Orders
- Revenues & Benefits:
  - Collection and recovery of £127m Council Tax (and Council Tax Reduction Scheme)
  - Collection and recovery of £113m Business Rate income
  - Processing of Housing Benefit claims (£145m) and managing the transfer to Universal Credit
  - Collection and recovery of Housing Benefit Overpayments (circa £4.5m pa)
  - Provision of Enforcement Agent services for taxation and parking
- Human Resources & Organisational Development:
  - HR Services to around 750 team leaders, supervisors and managers and circa 4,500 council staff
  - HR Services to schools covering circa 5,000 staff
  - Coaching, development and advice services to around 750 team leaders, supervisors and managers
  - Health & Safety advice and support to around 750 team leaders, supervisors and managers
- ICT:
  - Provision of equipment, services and helpdesk to circa 4,000 staff and schools
  - Provision of data protection services for email, applications and devices
  - Database management and maintenance of major corporate information systems
  - Management and procurement of voice, data storage, telephony, Citrix (remote access) and other contracts
- Internal Audit:
  - Provision of over 1,000 audit days for circa 50 internal audit reviews
  - Investigation of potential housing tenancy, contract and financial irregularity frauds
- Business Operations:
  - Collection and recovery of circa £58m Adult Social and Sundry Debts (Business and Personal)
  - Management of Deferred Payment Arrangements and other legal charges (£3m)

  - Processing over 200,000 payments to the council's suppliers and providers
  - Provision of banking, purchasing card and urgent payment services

The directorate operates at both a service and corporate level providing essential business support to front-line services while also supporting the council to meet statutory obligations, maintain strong governance, and develop effective strategies across each function.

Its key strategic objectives are as follows:

- Ensure that sustainable corporate services are in place whilst delivering significant savings as a result of joining the Orbis partnership.
- Support the council through a period of complex change, and in particular the modernisation agenda using its network of Finance, HR and ICT business partners.
- Improve transactional processes through the establishment of the new Business Operations hub in Brighton & Hove.
- Challenge and reduce the cost of goods and services through strong procurement practice, and support the improvement of contract management across the council.
- Develop and deliver the council's People Plan to improve the council's development and support offer to current and future employees.
- Achieve key tax collection targets while navigating and supporting residents through welfare reform.
- Improve ICT infrastructure and tooling, and support the delivery of Digital First objectives.
- Continue to develop Audit's innovative approach to risk management.

### **Strategy and Key Proposals**

During the 4-year period from 2016/17 to 2019/20 the directorate will reduce its net budget by over 20%. The Integrated Service & Financial Plan sets out how this can be achieved. Key proposals involve the integration of Brighton & Hove managers into the wider Orbis partnership with East Sussex and Surrey County Councils, the establishment of centres of expertise across the partnership, and further optimisation of processes including through the new Business Operations function.

Orbis will engage with the key customers in the 3 authorities to develop services that meet customer requirements while recognising that the authorities have joined the partnership in order to achieve greater savings through change and innovation while maintaining service resilience.

Note: Income of £157k from services to schools has been netted off within the gross budget.	1,907	1,768	46.1	Intention was to align costs with the predicted reduction in size of the organisation, however, taxation and income generation resources mean this has not materialised. Service is therefore focusing on managing demand, providing value added services and ensuring that services comply with corporate processes to improve efficiency. In 2018/19 and beyond, further opportunities for cost reduction will be sought through joint working within the Orbis Partnership.	Ongoing redesign and re-prioritisation of the service will be undertaken including some processing changes and continuing to move the service to a different customer service model in tandem with the move toward an Orbis shared service operating model. Potential 'centres of expertise' will be created within Orbis to achieve efficiencies through economies of scale. This in turn drives the need for automation and more efficient production.	Financial Statement production has the potential to be highly automated and the focus will be on continuing to drive efficiency in this area, including a potential option to adopt the CIPFA financial statement automated service.	Delivery Risk: Liaising with external auditors will be key to minimising risk to effective production and adverse auditor opinion on the accounts. There is also added resilience through partnership across Orbis.	50	40	23
	Strategic, Corporate & Treasury Services				These are strategic advisory services that are important to retain and align closely with strategic planning processes (e.g. budget setting, investment strategy, MTFs production, etc.). Service will be part of the shared service partnership with Orbis.	Potential 'centres of expertise' are being explored across Orbis to determine whether cost reductions are possible through integrated treasury management services, financial planning and corporate finance services, and taxation (VAT) services.	Delivery Risk: Key risk is resilience of the function as the importance of strategic financial planning and advice increases with the complexity of the financial situation.		27

<b>REVENUES &amp; BENEFITS</b>										
Revenues & Benefits	Administration of Housing Benefits and Council Tax Reduction awards - staffing costs budget	6,235	4,757	183.1	The Benefits function is statutory but the combination of a reducing caseload and efficiencies give the opportunity for savings to be made. The most significant factor in downsizing is the planned introduction of universal credit which will transfer caseload to the DWP. The stated savings take the reduction in grant directly related to this work transfer into account. This service is being considered as part of the Support Function Review.	The service continues to review its processes to maximise its use of resources. The reduction in workload, and the nature of the workload being transferred to the DWP provides opportunity to reduce cost while maintaining service standards. The original 4-year proposal made in 2016/17 has been amended to reflect the delay in the implementation of Universal Credit. It is now proposed that 31 posts will be deleted across the 4 year period.	Delivery Risk 2019/20: The saving forecast is predicated on the introduction of Universal Credit to the DWP forecast timescales. Changes in this forecast has meant a revision of the level of achievable savings and this may change again if there are further amendments to this forecast. There is subsidy risk if performance levels drop. There is also a risk of a skills shortage which may lead to recruitment and cost issues. Impact on Outcomes: No impact on outcomes provided customer service standards can be maintained.	280	-	116
	Administration of Housing Benefits and Council Tax Reduction awards - supplies, service and support costs.				As above.	No proposals in 2018/19 but in 2019/20 there will be associated reductions in some supplies & serviced and support costs as the service downsizes. This is a combination of indirect employee costs, postal costs print costs and publicity and marketing costs.	Delivery Risk 2019/20: The saving forecast is predicated on the introduction of Universal Credit to the DWP forecast timescales and accuracy. Changes in this delivery may mean a reprofiling of savings. Impact on Outcomes: No impact on outcomes anticipated.	21	-	43
	Administration of Housing Benefits and Council Tax Reduction awards - service charges.				To support the budget position by ending unnecessary payments from the General Fund to the HRA fund.	Saving taken in 2016/17 - no further saving possible.

	Administration of Housing Benefits, Council Tax Reduction, Council Tax and Business Rates - computer systems & document management system administration				1. Negotiated reduction in main systems contracts 2. Negotiate systems contract reductions in light of the reduced benefit caseload. 3. Negotiate reduction in on line benefit form contract 4. Reduce associated supplies and services costs.	For 2016/17 the service delivered savings in reduced contract. Further to that saving the service has identified further savings for 2017/18 in terms of reduced associated supplies and service costs.	Delivery Risk: None	11		-
					Reduction in support resources in light of the reduced benefit caseload.	Deleted one post in 2017/18 and a further post reduction is deliverable but not until 2019/20 (total 2 FTE).	Delivery Risk 2019/20: There is a risk that the transition generates an increase in documents per case which may mean the scanning and indexing workload does not reduce as predicted.  Impact on Outcomes: No impact on outcomes anticipated.	25	-	25
						Revenues & Benefits have a programme of digital changes to the service that are being delivered within the Digital First framework. As these changes are embedded that will begin to deliver savings. The success of the savings is, in part, dependent on managing customer channel shift to self-help services online.	There are three aspects to the delivery of digital savings . The first is reductions in cases, mostly postage and printing as e-documents are introduced. Second are savings related to automation as data from on-line forms automatically populates database records. The third is channel shift where self help means less resource is required for face to face and telephone contact.	Delivery Risk: If the channel shift is not on timetable then there will be a resource pressure that may have a detrimental effect on income collect or benefit subsidy.  Impact on Outcomes: No impact on outcomes provided customer services can be maintained and the change co-ordinated with other services. See EIA 22 and S5.	27	82

	Administration of Council Tax collection				Service redesign	Service redesign was undertaken in 2017/18 to compliment the delivery of digital programme. No further savings are possible until this model has been proven to work effectively i.e. by maintaining or improving collection rates.	Delivery Risk: None	100		
					The collection of council tax is statutory and administration savings have to be fully considered to ensure they do not impact on collection efficiency. However some savings have been identified. This service is being considered as part of the Support Function Review.	The saving is a combination of savings due to channel shift, moving the council tax leaflet to online only, reducing postal costs because of on line and text facilities etc. and some direct supplies and service savings on underspending budgets.	Delivery Risk: These savings are considered low risk in the context of collection provided the digital roll out stays on track.  Impact on Outcomes: No impact on outcomes anticipated.	1	10	10

Revenues & Benefits - Discretionary Awards	The administration of the Discretionary Housing Payments and the Council Tax Reduction Discretionary scheme	1,188	55	-	To reduce the permanent element of the discretionary set aside to support the local Council Tax Reduction Scheme to proportionate levels.	It is proposed to reduce the commitment to this fund over the next 3 years as it is not fully utilised. It was well funded initially as a prudent mitigation against the pressures of reducing the funding to the main scheme.	Delivery Risk: There is risk in reducing any discretionary scheme set to support the vulnerable but with revised parameters and sensitive collection strategies it is believed that this risk can be reasonably mitigated. A downturn in economic conditions may impact further. Impact on Outcomes: No impact on outcomes are expected based on current trends.	45	45

Increase the rate of recovery on historic benefit overpayment arrangements so that they are in line with the current maximum recovery amounts. This was proposed on a one-off basis in 2017/18 due to uncertainty about the current system of Housing Benefit subsidy and the transfer to Universal Credit. <b>REVENUES &amp; BENEFITS (TAX BASE SAVINGS)</b>										
Revenues & Benefits - Tax Base Savings	Council Tax base - Council Tax Reduction scheme				The central government grant for the Local Council Tax Reduction Scheme is reducing year on year and placing additional financial pressure on the council. It is proposed to introduce a revised local scheme to reduce some of this pressure and offset the expected extra expenditure that will fall onto the scheme when Government welfare reforms begin to impact from 2016.	There are no proposals to consult on further changes to the CTR scheme in 2018/19, however the savings target for this financial year can be met from the impact of further reductions in the CTR caseload that is anticipated to continue into 2018/19. Options for 2019/20 will be reviewed in the summer 2018 and consultation would be required if changes to the current CTR scheme are required.	Delivery Risk: It is anticipated that further alterations will need to be made by the council in 2019/20. There is risk that the cumulative effect of the welfare reforms will impact customers propensity to pay council tax and that estimates factoring this in may prove to be inaccurate. Economic conditions will clearly be an important factor.  Impact on Outcomes: Minimal impact anticipated subject to economic conditions and management of welfare reform impacts.	250	250	250

Impact on Outcomes: As the measure takes several years to fruition it is difficult to be certain of the outcome.			
Revenues & Benefits - Tax Base Savings	Business Rates - discretionary rate relief				The collection of Business Rates is statutory. The focus on performance improvement relates to increasing the tax base, which while financially beneficial to the authority, falls outside of the revenue budget. This service is being considered as part of the Support Function Review.	Local Authorities can award Discretionary Rate Relief (DRR) of up to 20% on properties already subject to a mandatory 80% relief because they are wholly or mainly used for charitable purposes. Registered Community Amateur Sports Clubs are similarly eligible. The council can also grant 100% discretionary relief for a property if it is occupied by an organisation that is not established or conducted for profit. The proposal is to be more stringent in these awards to minimise expenditure.	Delivery Risk: The risks associated in this proposal although not financially high are complex and need to be considered in the light of revised corporate priorities during the 4 year budget saving process. The proposal is for the second year to allow for appropriate consideration and consultation.  Impact on Outcomes: No impact on outcomes anticipated.	24		
					Additional increase to the tax base outside of the Revenues Budget.	Further review of the criteria for Discretionary Rate Relief with a view to reducing the amount of the overall award was achieved in 2017/18. 2017 Rate Revaluation means that further review is not recommended until the new system has settled.	Delivery Risk: The risks are as per above but as the discretionary fund decreases the impact widens. The beneficiaries of the discretionary scheme are mostly charitable organisations	10

This also reflects best practice studies that indicate that effective contract management can reduce contract costs by between 2% and 5%.	The savings against this service identified in the original 4-year savings plans will be met by one-off capital flexibilities. ICT Management Team	Senior ICT Management of Department	6,700	6,426	132.0	Service is non-statutory with a mixed supply market available from commercial and public providers. Integration into Orbis Shared Service is the agreed approach, with savings only possible through early integration of services both technically and through resourcing. Integration needs to happen in 2017/18 to achieve both early savings and maintain resilience of service despite significant demand pressure.	Reductions in senior managers through integration into Orbis, with early reduction in 2017/18 prior to budget pooling through deleting vacant post and early management integration with some redistribution of management accountabilities to remaining heads of service.	Delivery Risk: Capability and capacity to support change and operational risk in BHCC will be weakened, reduced ability to meet demand from services for modernisation and efficiency gains. ## Strategy, Governance & Law

### Services and Responsibilities

Strategy, Governance & Law's purpose and mission is to help the council in setting its strategy and priorities, enabling delivery of those priorities and monitoring performance. It also supports the democratic process in terms of elections and decision-making. It has a significant element of delivering front line services through Life Events (registrars, bereavement services and local land charges). The different services comprised in the directorate are:

**Legal Services (net budget £1.3m)** - this service provides legal advice and representation across all of the Council's functions as well as the Monitoring Officer function. The team includes the Safeguarding Team, which supports adult and children's safeguarding functions, an area where there is a significant increase nationally in Court proceedings. The Services has established a shared services Partnership, Orbis Public Law, with East Sussex, Surrey and West Sussex County Councils. The aim of the Partnership is to give greater resilience, economies of scale and an opportunity to trade more widely, enabling the support of priority services and objectives.

**Democratic and Civic Office Services (net budget £1.7m – including Members Allowances)** - this service provides support to Members generally, is responsible for the co-ordination and administration of the democratic decision-making process, Member training & development, administering of School Appeals and the Members' allowances scheme. It also includes responsibility for the Civic Office, (including the Mayor and the Lord Lieutenant) and as a service has compared favourably with others through CIPFA benchmarking data.

**Policy & Partnerships (net budget £0.329m)** - this includes the Policy, Partnerships and Scrutiny teams. The partnership service is part funded by partners in the City and supports Brighton & Hove Connected as well as a number of initiatives in co-ordination with partners in the city.

**Life Events (gross expenditure of £3.3m and income of £3.48m)** – this includes Electoral Services, Local Land Charges, Registration and Bereavement Services. As the net budget figures indicate, it is largely funded from income generated from fees and charges. The service has delivered significant savings over previous years, when it experienced some real challenges, including a snap General Election, staffing changes at a senior level in the Electoral Services Team, and competition from alternative providers, influencing fees and charges pricing structures.

**Performance, Improvement & Programme Management (net budget £0.697m)** - the role of this team is to drive change management, risk management and performance improvement across the organisation to minimise adverse impact of financial challenges on customers. It also has responsibility for ensuring objective resolution of customer dissatisfaction and taking strategic lead in improving customer experience through effective customer insight. The Customer Feedback team processes approx. 1500 complaints and 1000 compliments per year. The performance team drives the corporate and directorate planning and monitoring processes. There are currently 6 Directorate Plans, 30 Service Plans and 76 Corporate Key Performance Indicators. There are currently 16 strategic and 27 directorate risks.

A number of modernisation projects and programmes across the organisation in all directorates are managed from the Programme Management Office which is funded largely from one-off modernisation funding. There are currently approx. 25 corporate and 25 directorate projects/programmes. The Business Improvement team is also funded through this one-off resource with a focus on conducting reviews to manage customer demand and deliver efficiencies. The team conducts approx. 18 reviews per year.

**Corporate Communications (net Budget: £0.640m)** – The Communications Team connects the council and its services with the city. By using expert, specialist skills across a range of disciplines, the team communicates news and information that improves engagement and enhances and protects reputation with stakeholders. From crafting engaging content, to project managing campaigns that help change behaviours, the Communications Team provides a fully integrated service that combines:

- Marketing – helping turn complex messages into impactful content that reaches target audiences.
- Media relations – turning information into compelling news stories across newspapers, TV radio and online media and setting the story straight when misrepresented.
- Branding – managing the council's identity so that our 700+ services are clearly recognised.

- Internal communications – keeping staff and councilors connected to what’s going on across the council and why.
- Digital communications – broadcasting online, building a strong presence in a city that thrives on digital media.
- Graphic design – creating powerful, visual, branded content that stands out.

<b>DEMOCRATIC &amp; CIVIC OFFICE SERVICES</b>										
Democratic Services	Democratic Services	551	498	15.0	This will focus on achieving savings that have minimum impact on the support available.	Savings through service redesign, use of information technology, rationalising supplies and services and a reduction in the offer available to support Members and officers by focusing on priority areas.	Delivery Risk: The savings, especially those relating to printing, are dependent on the necessary investment and support from ICT (e.g. tablets for electronic agenda access.) Support for non-decision-making meetings may have to be withdrawn, with greater pressure on staff and less support to members.  Impact on Outcomes: There may be some cost-displacement to other services from reduced support to meetings. Less development support for members and a reduction in the overall support to members. See EIA 23	30	32	29
Leadership & Civic Support	Civic Mayors Office/ Mayors Allowances/ Political Admin Support	163	143	4.8	Service redesign to be undertaken. <b>LEGAL SERVICES</b>										
Legal Services	Legal Services (Note: income of £0.047m from services to schools has been netted off with gross budget).	1,486	1,171	33.1	The proposed savings will protect legal support for core, high risk priority services. In 2017-2018 the savings involved a substantial reduction in capacity with corresponding reduction in the support available. An element of charging for non core services was introduced 9for example a buy back offer for legal advice to schools). In 2018 Legal Services will manage the proposed savings through maximising income and increasing resilience through Orbis Public Law . A careful balancing act will be needed to ensure the exposure to risk is	The projected savings for 2018 will be achieved from a combination of a reduction in staffing and increase in external income. The strategy for Orbis Public Law is to achieve greater resilience, economies of scale and an opportunity to trade, enabling the support of priority services and objectives.	Delivery Risk: The move to develop and implement Orbis Public Law will be a period of change which may impact on service provision. The number of organisational initiatives relating to service changes/reductions also increases the likelihood of legal challenge, increasing the demand for legal advice. Orbis Public Law requires savings levels to be agreed between authorities.  Impact on Outcomes: The proposed savings for 2018 (when taken in addition to the more significant 2017-2018 savings) may mean the	120	59	40

The Legal Service will need to manage demand through re-defining with clients what is deliverable within the resources available.			
Safeguarding & Advice (Children & Adults)	Safeguarding & Advice (Children & Adults)	142	142	16.3	This is a critical service funded largely directly by the clients (Children and Adults). It is therefore not proposed to reduce the budget beyond the proportion attributable to the core funding of the service and where there is less impact.	It is proposed to review the provision of the service as part of the Orbis Public Law initiative. Savings realised must be consistent with the need to ensure support for the safeguarding function. This will include looking at opportunities for efficiencies e.g. an in-house advocacy service. A commercial approach will be taken where possible for example undertaking paid for DoLS work for the CCG. The number of childcare proceedings rose by almost 50% in 2017/18 and this reflects the ongoing national picture. To reduce the funding in this area would impact on the ability of the Council to issue and progress care proceedings in line with our statutory responsibilities.	Delivery Risk: Any significant reduction in resources will impact on the council's ability to discharge its safeguarding obligations at a time where there is a national trend of significant increase in care proceedings. This risk applies to all options but may be mitigated with Orbis Public Law as it increases resilience, in particular through considering the use of in-house advocates more widely.  Impact on Outcomes: There will be some impact on the legal capacity as demand has continued to increase. The numbers of proceedings issued have significantly increased for both adults and children's.	-

Impact on Outcomes: Medium/high for 2019/20 as less resource to do proactive work to improve effectiveness and efficiency in the best interest of customers and reduced corporate assurance and governance. Reduced capacity to do cross-cutting work and drive innovation. See EIA S9.	113	48	26
Programme Management Office (Temporary funding from internal modernisation fund)	Programme Management Office - building capacity across the organisation by delivering training and developing	656	-	17.6	Critical to drive modernisation initiatives particularly cross-cutting across the organisation to enable efficiency savings and at the same time improving customer experience.	This team is funded from one-off modernisation funding so unable to contribute to the revenue savings. The one-off funding is to be protected as part of a wider strategy to drive modernisation in the council which is a key enabler for achieving budget savings

<b>COMMUNICATIONS</b>										
Communications	Communications	694	677	13.9	The budget has been thoroughly reviewed and savings have been found from product and supplies codes which are no longer required. The structure of the team has also been reviewed and there will be the deletion of one post and small restructure in the Digital Communications arm of the team.	Continuation of Business Partnering Service for the council offering multi-skilled communication team members to support services across the council.	Delivery Risk: Funding would be required on a project basis in later years for service demands that are over and above the core service offer. Impact on Outcomes: Potential for improved service to the organisation, improved customer satisfaction, and development of multi skilled staffing.	61	46	31
Communications	Graphic Design Team (Note: income of £0.133m from other council services has been netted off within gross budget).	(21)	(37)	2.6	In-house service currently recovers direct costs through recharges but not all overheads. The aim is to increase the proportion of external business.	Aim is to cover all costs including overheads through income generation. Consideration could also be given to moving to an external commissioning model in the longer term. Savings to this team can only be made by the further deletion of posts. This would mean the council having to use external designers to cope with demand which would mean an increase in design costs to other teams across the council.	Delivery Risk: Resource capacity within team may be an issue and the market for external business is untested which may reduce income opportunities. Impact on Outcomes: No impact on service expected.	-	-	-
