

Draft Housing Management Performance Report **Quarter 3 2017/18**

This housing management performance report covers Quarter 3 of the financial year 2017/18. It uses the 'RAG' rating system of red, amber and green traffic light symbols to provide an indication of performance, and also trend arrows to provide an indication of movement from the previous quarter.

Status		Trend	
	Performance is below target (red)		Poorer than previous reporting period
	Performance is close to achieving target, but in need of improvement (amber)		Same as previous reporting period
	Performance is on or above target (green)		Improvement on previous reporting period

A total of 44 performance indicators are measured against a quarterly target:

- 33 are on target
- 6 are near target
- 5 are below target.

Comments on performance are given for indicators which are near or below target.

2.7	Stage two complaints upheld	17% or under	0% (0 of 10)	17% (2 of 12)		
2.8	Housing Ombudsman Complaints upheld	18% or under	0% (0 of 1)	33% (1 of 3)		

How we are using this information to improve services – Customer services and complaints

Two indicators are near target:

Stage one complaints escalated to stage two – target 10%

Performance here is slightly off target (by 3% points) and to improve it services have been focusing on providing more informative and considered responses at Stage 1 (in order to prevent escalation to Stage 2). Although the quality of Stage 1 responses are generally good and have been improving this was offset during Quarter 3 by there being more complaints than usual relating to complex repairs and maintenance issues, which are likelier to need to be escalated to Stage 2 to in order to resolve them.

Housing Ombudsman Complaints upheld – target 18%

One in 3 complaints were upheld during Quarter 3 (33%) meaning that performance during the quarter missed the target. There is a small volume of Ombudsman complaints during a typical quarter and the year to date 2017/18 performance is still on track at 13% (1 of 8).

3. Empty home turnaround time and mutual exchanges

	Empty home turnaround time and mutual exchange indicators	Target 2017/18	Q2 2017/18	Q3 2017/18	Status against target	Trend since last quarter

3.5	Decisions on mutual exchange applications made within 42 calendar days (statutory timescale)	100%	100% (37 of 37)	100% (35 of 35)		

How we are using this information to improve services – Empty home turnaround time and mutual exchanges

One indicator is below target:

Average re-let time for Seniors housing properties, excluding time spent in major works – target 30 calendar days

Performance was 42 days during Quarter 2 and missed the target, although the average re-let time improved compared to the previous quarter's performance of 52 days. Seniors housing properties are usually more difficult to let than general needs ones. This is generally because there are fewer people on the waiting list who are eligible for Seniors housing (eg because they've not been assessed for it or don't have the assessed mobility need for the property) and because some are relatively unpopular because they are small in size – conversion works have taken place at several schemes to create larger properties.

3.6. Long term empty dwellings by ward (empty six weeks or more as of 1 January 2018)

Ward name (excludes those with no long term empty properties)	No. dwellings	Average days empty	Range of days empty	Comment
Goldsmid	1	85	85-85	1 house ready to let.
Hangleton and Knoll	2	344	330-358	2 houses due to undergo extensions.
Hanover and Elm Grove	11	547	43-904	1 house ready to let, 1 house undergoing major works and 9 studio flats within Stonehurst Court (a decommissioned Seniors housing scheme).
Hollingdean and Stanmer	2	89	50-127	1 flat ready to let and 1 Seniors studio flat undergoing major works.
Moulsecoomb and Bevendean	2	789	778-799	1 house undergoing an extension and 1 due to undergo an extension.
North Portslade	2	75	71-78	2 Seniors flats ready to let.
Patcham	3	139	43-316	2 Seniors studio flats ready to let and 1 house due to undergo an extension.
Preston Park	2	89	50-127	1 flat ready to let and 1 flat undergoing major works.
South Portslade	1	806	806-806	1 house undergoing major works.
Wish	1	43	43-43	1 Seniors studio flat ready to let.
Total	27	376	43-904	Of the 27 properties, 9 are ready to let (33%), 5 are extensions (19%), 4 are in major works (15%) and 9 are due to be decommissioned (33%).

How we are using this information to improve services – Repairs and maintenance

Six indicators are below or near target:

Responsive repairs passing post-inspection – target 97%

Performance has improved since the last quarter, from 94.7% to 96.8%, and is now just 0.2% below target. A total of 913 jobs were inspected and 29 failed their quality checks, of which 18 were because of poor quality work, 6 required corrections to either the volume of labour or materials used (Schedule Of Rates codes) and 5 needed extra work to finish the job. To improve performance, joint inspections (by staff from BHCC and Mears) were introduced from November 2017 in order to support joint learning about the quality of work expected.

Repairs completed at first visit – target 92%

More repairs were completed at first visit during Quarter 3 (88.7%) compared to Quarter 2 (85.9%) and this improvement has happened in response to work with the contractor to improve job specification and van stocks. This work will continue to be reviewed to assist in ensuring materials are available to complete more jobs at first visit.

Lifts – average time taken to respond – target 2 hours

The Quarter 2 response time of 2 hours and 24 minutes was slightly off target although of the 131 reported breakdowns there were 3 which involved passenger trap-ins and all of these were responded to within the target time of two hours.

Lifts restored to service within 24 hours – 95%

Performance at 91.7% was below target during Quarter 3, down from 97.8% during Quarter 2. Of the 132 lifts restored to service, 121 were done within 24 hours and 11 took longer. More detail is provided about the latter in the commentary for the 'average time to restore service when not within 24 hours' indicator.

Lifts – average time to restore service when not within 24 hours – target 7 days

During Quarter 3 there were 11 lifts not restored to service within 24 hours and these took an average of 13 days to restore. Performance was adversely affected by difficulties in obtaining parts for a non-standard lift at a medium rise block of flats in Goldsmid ward. This lift took 63 days to restore with several attempts by Liftech to rectify the fault and escalation to the lift manufacturer. The residents were still able to use the lift for some of the time with the help of an engineer who manually operated it.

Repairs Helpdesk – longest wait time – target 5 minutes

Overall call volumes were up by 3% on the previous quarter and during Quarter 3 there were 11 days in total where the longest wait time was over the 5 minute target. The longest wait time of 13 minutes and 17 seconds happened on 15 November due to telecommunication issues in the Brighton area with local systems going down. The second longest wait time of 12 minutes and 6 seconds was because of a very high volume of calls generated by a water supply issue affecting the BN2 area on 30 October. The average wait time during the quarter was 29 seconds.

How we are using this information to improve services – Anti-social behaviour (ASB) and tenancy management

One indicator is below target:

Victim satisfaction with the way their ASB complaint was dealt with during the year to date ('very satisfied' and 'fairly satisfied') – target 92%

Performance at 81% is below target, with 25 people satisfied out of a total of 31 who were surveyed over the phone after their ASB case was closed. Six respondents were either neutral or dissatisfied with the way their case was dealt with, which was primarily because they were unhappy with the outcomes of their cases, whereas they were generally more positive about the case officers. As a result of survey feedback, the Tenancy Team are looking to increase the level of support and communication with victims of ASB.

How we are using this information to improve services – Seniors housing

One indicator is near target:

Seniors housing residents who have had a tenancy visit within the last 12 months – target 98%

Performance was 96% at the end of Quarter 3 and has stayed the same since the previous quarter. Of 868 Seniors housing residents, 31 have not had a tenancy visit within the past year. Although there were 9 residents who hadn't yet been visited by that time, the other 22 had either declined a visit or were unavailable (eg because they were in hospital or respite care).
