**Subject:** Please keep Uber in Brighton!

To whom it may concern,

I started at The University of Brighton in September last year. Being a student, I love having Uber in the city as it's convenient, often cheaper and more reliable than other taxi services. I find that it is far easier to have one Uber app when I travel, so I know my card details are safe, and it also saves me from having to use and remember to get cash. Often local taxi companies don't accept card and that sometimes leaves me without a way to get home at night. I know that other students my age also use Uber a lot in Brighton.

Many thanks,

Emma Deguara, Student at University of Brighton
