

Appendix F

	Su/Ob	reasons
1	Object	Parking is difficult with increased number of residents from flats parking on the greens and natural areas.
		Would prefer to see all double yellow lines removed with just a keep clear outside children's centre
2	Object	Impossible for parents and carers to drop off at school/nursery
3	Object	The junction of Lynchet Close and Brentwood Road is clearer and safer with the double yellow lines
		Better for the children who are travelling to the schools or childrens centre
		Feel some spaces could be reinstated outside Salehurst Close and Cedar Centre but should remain outside the playground and children's centre.
4	Object	Removing the yellow lines will cause even more traffic issues - need to be put in place and adhered to.
		Right outside a childrens centre and local park and is an extremely busy road with further two schools.
5	Object	Lynchet Close to two schools and play area in past risks to young children and parents due to number of cars parked in road.
		Parked cars reduce the visablity of traffic turning into Close.
		Keeping the double yellow lines would make the play area and school travel safer.
6	Support	Narrow road leading to schools, children's centre, playground and walking area
		Keeping it clear much better for safety, visablity and traffic flow.
