

## Equality Impact and Outcome Assessment (EIA) Template - 2019

**EIAs make services better for everyone and support value for money by getting services right first time.**

EIAs enable us to consider all the information about a service, policy or strategy from an equalities perspective and then action plan to get the best outcomes for staff and service-users<sup>1</sup>. They analyse how all our work as a council might impact differently on different groups<sup>2</sup>. They help us make good decisions and evidence how we have reached these decisions<sup>3</sup>.

See end notes for full guidance. Either hover the mouse over the end note link (eg: Age<sup>13</sup>) or use the hyperlinks ('Ctrl' key and left click).

### 1. Equality Impact and Outcomes Assessment (EIA) Template

First, consider whether you need to complete an EIA, or if there is another way to evidence assessment of impacts, or that an EIA is not needed<sup>4</sup>.

<b>Title of EIA<sup>5</sup></b>	Covid-19 Urgent Response Transport Action Plan – UPDATE (SEP 2020)	<b>ID No.<sup>6</sup></b>	EEC19
<b>Team/Department<sup>7</sup></b>	City Transport		
<b>Focus of EIA<sup>8</sup></b>	<p>The Coronavirus (Covid-19) pandemic has transformed the context in which transport across Brighton &amp; Hove is operating and has highlighted some key challenges:</p> <ul style="list-style-type: none"> <li>• Physical distancing rules have highlighted some of the inadequacies inherent in the way space is allocated on the public highway and in public spaces generally.</li> <li>• A significant reduction in public transport services, at a time when it is vital for key workers to access workplaces safely, has highlighted the currently lack of high-quality routes for cycling for use as an alternative mode which allows physical distancing.</li> <li>• Massively reduced levels of motor traffic are encouraging many people to turn to walking and cycling, but issues remain with road danger as speed has increased on many roads</li> <li>• Local businesses are struggling to survive and will need to find new ways to reach their</li> </ul>		

customers.

- Vulnerable people are unable to leave their homes and many are now relying on the council to provide them with essential supplies.

When planning the transport response to the pandemic a key aim has been to avoid a return to pre-existing motor traffic levels. During the government-initiated lockdown vehicle movements have been as much as 60% lower than usual. There has been an increase in the number of people cycling for pleasure and exercise, fewer journeys made by car and more people choosing to walk, rather than drive short distances.

As more people return to work and restrictions on movement ease there is need for residents to incorporate active travel into their commute. With public transport capacity reduced because of the need to physically distance whilst travelling, there is a risk of significant congestion unless an increased range of alternative sustainable options, including walking and cycling, is facilitated.

The Covid-19 Urgent Response Transport Action Plan (the ‘Action Plan’) identifies transport network measures for the city in the short term that will enable people to travel and exercise safely, and in line physical distancing rules. It also responds to the statutory guidance issued by government on 9 May 2020 which encourages local authorities to consider how towns and cities can ensure transport networks support recovery from the Covid-19 emergency and provide a lasting legacy of sustainable, safer transport. The Action Plan’s key principles are:

1. Helping vulnerable people in the city and promoting health and wellbeing;
2. Making essential journeys safer;
3. Supporting the local economy; and
4. Ensuring the transition to a Carbon Neutral city by 2030.

The Action Plan and its resulting transport measures affects all users of the city’s transport network – its roads, cycle paths, footways, and public transport services – and the Council’s key providers / contractors who help to deliver and maintain the network. The measures are broadly grouped into three categories:

1. Improved and new temporary cycle lanes (including on-carriageway, two and one-way lanes, and improved levels of enforcement)
2. Improved walking facilities to support physical distancing and active travel (including road closures, pavement widening, signs and floor markings)
3. Improved access to cycle parking and cycle hire (including extension of the Bike Share scheme)

## 2. Update on previous EIA and outcomes of previous actions<sup>9</sup>

<b>What actions did you plan last time?</b> (List them from the previous EIA)	<b>What improved as a result?</b> What outcomes have these actions achieved?	<b>What <u>further</u> actions do you need to take?</b> (add these to the Action plan below)
Ensure detail of the changes to the transport network is published publicly	Greater transparency about the changes taking place.	Ensure the information published includes a rationale for why these changes are happening and the process being followed, for greater transparency and understanding.
Share information about transport changes with local community / representative groups to disseminate widely	Councillors, stakeholders and community groups have been able to share any views and concerns about the changes ahead of implementation, as well as highlighting impacts on specific communities once the changes are in place.	Ensure this information is accessible and available in a range of formats to share easily and widely.
Engage further with local charities / representative groups in the city to understand the key transport and travel issues during the pandemic for specific communities / user groups	Specific disproportionate impacts of the transport changes are highlighted, and action can be taken to mitigate these.	Continue to monitor, review and amend methods of engagement as necessary
Launch online public survey on the live temporary measures	People have been able to share their views on the changes in place, to help shape the ongoing transport response to Covid-19.	Provide alternative mechanisms for people to feed back their views.
Ensure measures that reallocate road space for walking and cycling meet accessibility standards and are an appropriate width to accommodate adapted cycles and child trailers	Disabled people, those with reduced mobility, and cyclists travelling on adapted bicycles have been able to utilise the cycle lanes and pedestrians with mobility aids have been able to move around the city safely.	Continue to review and consider feedback on the accessibility of the temporary changes to meet a wide range of needs.
Seek opportunities to reallocate road space near to schools to facilitate active travel and support physical distancing as more children return to education. (e.g. School Streets programme)	The School Streets scheme is providing a low traffic area, making it easier for pedestrians and cyclists to use the road space to physically distance. Combined with additional school measures more children are able to safely attend school, especially older more independent pupils who travel on their own and may be fearful of the	Continue to monitor, review and amend measures as necessary

	volumes of traffic and normal congestion at the school gates	
Ensure that the placement of temporary signs and barriers do not cause obstructions for disabled users	Disabled pedestrians and cyclists are able to move around the city safely, whilst physically distancing.	Seek opportunities to make temporary road layout changes more obvious / visible for people with sight impairments.
Ensure essential access for disabled people is maintained in areas where road space is reallocated	Overall the number of disabled parking bays has not reduced as a result of the temporary changes. Where concerns about disabled access have been raised, traffic regulation orders have been amended and alternative accessible solutions have been sought.	As above - continue to review and consider feedback on the accessibility of the temporary changes to meet a wide range of needs.
Set up account with an interpreting service to manage requests for information in other languages, and publicise the service	No requests for information in alternative languages have yet been received.	Continue to monitor and review uptake of interpretation offer.
Specifically consider the needs of key workers, especially those caring for vulnerable residents in the city, as short-term changes to the transport network are planned	The offer of free access to the BikeShare scheme for NHS and care workers has been well used, with the scheme fully subscribed during lockdown.	As more people return to work, seek measures that will avoid overcrowding on public transport and help reduce congestion in the city, so that key workers can continue to provide vital services.
Continue to promote and publicise Access Fund schemes for sustainable travel, alongside short-term changes to the transport network	Direct support provided for people seeking to access employment / education and to travel actively throughout the pandemic.	Continue to monitor uptake of Access Fund schemes.
Ensure short-term transport measures do not undermine the critical capacity of the transport network	There has been an increase in the number of people cycling, but congestion levels have increased in some areas. Under an experimental traffic regulation order measures can be altered quickly, in response to these impacts.	As more people return to work, seek measures that will avoid overcrowding on public transport and help reduce congestion in the city.
Ensure pavement widening measures that support physical distancing take account of people gathering near places of worship, community 'hubs' and shops	Reallocating road space in busy retail and city centre areas is creating more outdoor space for communities to enjoy safely, whilst supporting the local economic recovery.	Continue to monitor, review and amend measures as necessary.

Ensure the Action Plan supports areas that are 'transport poor' and people in areas of multiple deprivation	Temporary cycle lanes are supporting key commuter journeys and providing new facilities where there were previously very few.	Continue to monitor, review and amend measures as necessary.
---	---	--

### 3. Review of information, equality analysis and potential actions

Groups to assess	What do you know <sup>10</sup> ? Summary of data about your service-users and/or staff	What do people tell you <sup>11</sup> ? Summary of service-user and/or staff feedback	What does this mean <sup>12</sup> ? Impacts identified from data and feedback (actual and potential)	What can you do <sup>13</sup> ? All potential actions to: • advance equality of opportunity, • eliminate discrimination, and • foster good relations
Age <sup>14</sup>	<ul style="list-style-type: none"> <li>• Residents of Brighton &amp; Hove:               <ul style="list-style-type: none"> <li>○ 45,375 (15.6%) 0-15yrs old</li> <li>○ 206,515 (71.1%) working age</li> <li>○ 38,505 (13.3%) aged 65+</li> </ul> </li> <li>• 41% of people aged 65+ live alone.</li> <li>• 18.7% of older people are income deprived.</li> <li>• Over 60s are amongst those most vulnerable to infection and most at risk of inadvertently passing on the virus.</li> <li>• There are c. 34,000 older persons bus pass holders in the city. These bus passes provide national travel for eligible holders between the 9.30am and 11pm on weekdays and anytime at the weekend.</li> <li>• Between 1 March and 31 August 2020 there have</li> </ul>	<ul style="list-style-type: none"> <li>• Dedicated cycle lanes make is safer and easier for children to cycle to school.</li> <li>• E-bikes provide an opportunity to get older people cycling.</li> <li>• Opportunities for cycling and walking facilities near schools and nurseries are important, particularly with physical distancing rules in place and to encourage more families to send their children back to school.</li> <li>• Increased congestion and/or removal of parking spaces linked to temporary changes can affect how efficiently care workers and others assisting vulnerable people can operate.</li> <li>• A focus on improving commuter routes disproportionately impacts retired people</li> </ul>	<ul style="list-style-type: none"> <li>• Covid-19 may be having a disproportionate effect on the elderly, by discouraging them from travelling at the busiest times of day.</li> <li>• More families and children will be travelling on popular routes to education settings as lockdown restrictions ease and there is a risk that car journeys will increase.</li> <li>• Some parents may be reluctant to send their children back to school during the pandemic, so creating a safe environment for families travelling to school and around these settings is important.</li> <li>• If temporary transport measures only focus on enabling safe commuter trips, this is less likely to support older and</li> </ul>	<ul style="list-style-type: none"> <li>• Locally the concessionary bus pass offer for older residents has been extended to 9am-4am during the week</li> <li>• Residents eligible for a pass but unable to travel on the bus can exchange their bus pass for £70 worth of taxi vouchers per year.</li> <li>• Seek opportunities to reallocate road space near schools to facilitate active travel and support physical distancing as more children return to education.</li> <li>• Work with local charities / organisations supporting older people to travel more actively.</li> <li>• Utilise government</li> </ul>

<b>Cumulative impact<sup>25</sup></b>	<ul style="list-style-type: none"> <li>• There is a strong link between deprivation and people living with disabilities in the city.</li> <li>• 49,833 (17.2%) of Brighton &amp; Hove residents live in one of the most deprived 20% of areas in England</li> </ul>	<ul style="list-style-type: none"> <li>• Safe walking and cycling routes give people alternatives to increasingly unaffordable car ownership and the rising cost of public transport.</li> </ul>	<ul style="list-style-type: none"> <li>• Disabled people may be more likely to struggle to travel for access to work.</li> <li>• Covid-19 is having a proportionally higher impact on the most deprived areas.</li> </ul>	<ul style="list-style-type: none"> <li>• Work with representative groups in the city to understand the key transport and travel issues for disabled people.</li> <li>• Continue to target travel support, via the Access Fund Programme, at those</li> </ul>

<b>Groups to assess</b>	<b>What do you know<sup>10</sup>?</b> Summary of data about your service-users and/or staff	<b>What do people tell you<sup>11</sup>?</b> Summary of service-user and/or staff feedback	<b>What does this mean<sup>12</sup>?</b> Impacts identified from data and feedback (actual and potential)	<b>What can you do<sup>13</sup>?</b> All potential actions to: <ul style="list-style-type: none"> <li>• advance equality of opportunity,</li> <li>• eliminate discrimination, and</li> <li>• foster good relations</li> </ul>
				<ul style="list-style-type: none"> <li>• struggling to access employment</li> <li>• Ensure the Action Plan supports areas that are 'transport poor' and people in areas of multiple deprivation</li> </ul>

#### **Assessment of overall impacts and any further recommendations<sup>26</sup>**

The city's transport network is used by everyone and therefore, any permanent or temporary changes to the network have the potential to impact on all groups of people with protected characteristics under the Equality Act.

The Covid-19 Urgent Response Transport Action Plan has been developed in response to the overriding need for people to change the way that they exercise and travel around the city because of the public health crisis created by the coronavirus. The measures in the Action Plan are short-term and designed to be implemented rapidly. Their aim is to help reduce the spread of the virus and support people to follow government rules on physical distancing, whilst keeping the city moving. The Plan continues to evolve as restrictions on movement ease and new government guidelines are released.

As the measures in the Action Plan are implemented the groups identified as most at risk of being disproportionately affected are disabled people, those from BAME groups and women. It is important that the changes:

- meet physical accessibility standards, so as not to negatively impact disabled people,
- as a priority, retain disabled parking and maintain disabled access,
- minimise obstructions on the highway, particularly where a road layout has been altered,
- are communicated in clear, accessible and multiple formats,
- take into account the essential journeys made by key workers, who are more likely to be female and from BAME groups,
- help to avoid overcrowding on public transport,
- facilitate the safe reopening of shops, businesses and schools by supporting people to access employment and education.

Continued engagement with organisations representing equality groups about the impacts of planned and implemented measures will be

<b>Groups to assess</b>	<b>What do you know<sup>10</sup>?</b> Summary of data about your service-users and/or staff	<b>What do people tell you<sup>11</sup>?</b> Summary of service-user and/or staff feedback	<b>What does this mean<sup>12</sup>?</b> Impacts identified from data and feedback (actual and potential)	<b>What can you do<sup>13</sup>?</b> All potential actions to: <ul style="list-style-type: none"> <li>• advance equality of opportunity,</li> <li>• eliminate discrimination, and</li> <li>• foster good relations</li> </ul>
<p>important for ensuring issues and concerns for specific communities are picked up and addressed.</p> <p>In addition, officers should continue to utilise the Experimental Traffic Regulation Order (ETRO) process to adapt measures already in place swiftly and directly in response to feedback from the public.</p>				

#### 4. List detailed data and/or community feedback that informed your EIA

Title (of data, research or engagement)	Date	Gaps in data	Actions to fill these gaps: who else do you need to engage with? (add these to the Action Plan below, with a timeframe)
Blue Badge and Concessionary Travel team database	17 June 2020	Will not reflect the entire disabled resident population of the city	Engage with representative groups to understand the key transport and travel challenges faced by disabled people during the pandemic
<a href="#">Brighton &amp; Hove Joint Strategic Needs Assessment</a>	2019	None identified	
<a href="#">Local Insight profile for Brighton and Hove area, OCSI</a>	June 2020	None identified	
BHCC OPD Known Data	Q4, 2019-20	Staff who have not declared their gender	No action planned – staff have a right to withhold this information
Stakeholder engagement on the developing Local Cycling and Walking Plan	June 2020 & September 2020	Not necessarily reflective of wider resident/visitor/business views – only involved key stakeholders	Gather wider range of views on the transport changes via online survey and direct engagement / consultation activities
Customer contact via transport.projects inbox	From March 2020 onwards	Largely reflects views of people who are against changes / wish to complain	Gather wider range of views on the transport changes via online survey and direct engagement / consultation activities
<a href="#">ONS Data – Coronavirus and loneliness</a>	June 2020	National dataset – not available at Local Authority level	No action planned

Comments submitted on Experimental Traffic Regulation Orders	July 2020 onwards	None identified	
Feedback via the online public survey about the temporary measures	23 June 2020 onwards	Online survey not accessible to all.	Provide alternative mechanisms for people to feed back their views.
Informal working group with community representatives	June 2020 onwards	Not all equality groups represented. Disabled representatives included from late August 2020.	Engage directly with wider representative groups
Meeting with disability representatives and councillors	18 August 2020	Mainly focused on issues for disabled car users, not the wider disabled community	Continue to engage with a wide range of disability groups
Direct engagement by email to community groups for their feedback on the temporary changes	August/ September 2020	Responses not received from all groups Some feedback indicated information was hard to follow.	Create a simplified summary of the changes and the process being followed using visual aids / easy read information.
Direct feedback from councillors on schemes	July 2020 onwards	Not all councillors have shared views	Continue proactively sharing details of planned and implemented measures with councillors inviting feedback
Equalities and Access Workstream Report: Community impacts of COVID-19 lockdown on women, BAME, faith, LGBTQ and disabled communities in Brighton & Hove	August 2020	No specific mention of impacts of Covid-19 on movement around the city, although it can be assumed that other impacts identified would directly or indirectly affect this.	No action planned
Feedback from customers via the Customer Feedback team	August 2020	Largely reflects views of people who are against changes / wish to complain	Gather wider range of views on the transport changes via online survey and direct engagement / consultation activities

## 5. Prioritised Action Plan<sup>27</sup>

Impact identified and group(s) affected	Action planned	Expected outcome	Measure of success	Timeframe
NB: These actions must now be transferred to service or business plans and monitored to ensure they achieve the outcomes identified.				
All	Ensure clear, accessible, timely and inclusive information about the changes to the transport network and is published publicly, as well as the process being followed	More people aware of what the council is doing and why, and can plan their journeys accordingly	Fewer public enquiries about the changes	As and when changes to the transport network are made and/or altered
All (particularly disabled people and BAME groups)	Share information about transport changes with local community / representative groups in appropriate formats to disseminate widely	Wider groups are aware of the changes and can plan their journeys accordingly	Fewer public enquiries about the changes from specific groups of users	As and when changes to the transport network are made and/or altered
All (particularly underrepresented groups)	Engage further with local charities / representative groups in the city to understand the key transport and travel issues during the pandemic for specific communities / user groups	Feed back from specific communities / user groups will shape future changes	Fewer negative impacts / complaints about the measures from specific user groups	Throughout the planning and implementation phases of the Action Plan
All	Provide alternative mechanisms for people to feed back their views.	People who cannot access the online feedback survey are able to constructively share their views on the temporary changes	Wider range of views inform the design of future transport changes	Ongoing

Parents, People with disabilities	Ensure measures that reallocate road space for walking and cycling meet accessibility standards and are an appropriate width to accommodate adapted cycles and child trailers	Disabled users of the transport network and families are able to utilise the new measures safely and without obstruction	No complaints from these groups about the changes  Road safety audits do not highlight issues with the design of schemes for disabled people	As and when changes to the transport network are made and reviewed
People with disabilities	Ensure that the placement of temporary signs and barriers do not cause obstructions for disabled users	Disabled people are unimpeded when using reallocated space	No complaints about the accessibility of the changes from disabled people or accident/injury caused	As changes to the transport network are planned and implemented
People with disabilities	Ensure essential access for disabled people is maintained in areas where road space is reallocated	Disabled people are not prevented from accessing areas of the city they would otherwise be able to	No complaints about the accessibility of the changes from disabled people	As changes to the transport network are planned and implemented
People with disabilities	Wherever possible, ensure disabled parking bays are not removed as a result of temporary changes, but if this is necessary, relocate bays to the nearest possible site	Disabled car users are not disadvantaged or prevented from accessing areas of the city they were previously able to	No complaints about the accessibility of the changes from disabled people  Numbers of disabled people visiting areas of the city subject to temporary changes are not reduced	As and when changes to the transport network are made and reviewed
BAME groups, women, vulnerable people	Specifically consider the needs of key workers, especially those caring for vulnerable residents in the city, as short-term changes to the transport network are planned	Key workers able to fulfil their duties unhindered	No complaints about the transport changes from vulnerable residents or key workers operating in the city	As changes to the transport network are planned and implemented
People on low incomes	Continue to promote and publicise Access Fund schemes for sustainable	People on low incomes are able to access work and education safely,	Uptake of support offer via the Access Fund Programme	As changes to the transport network are planned and

	travel, alongside short-term changes to the transport network	whilst potentially using an alternative mode of transport		implemented
All	Ensure short-term transport measures do not undermine the critical capacity of the transport network	Increase in pedestrian, cycle and motor traffic can be safely accommodated as lockdown restrictions ease, there are more visitors to the city, and more public gatherings	Levels of congestion are at expected levels or below  Fewer complaints about traffic and congestion in areas where temporary changes have been implemented  Physical distancing rules are not compromised in places where people are gathering and the city does not enter a 'local lockdown'	As changes to the transport network are planned and implemented
All (particularly people who have a religion/belief, and specific community groups)	Ensure pavement widening measures that support physical distancing take account of people gathering near places of worship, community 'hubs' and shops	People are able to gather whilst physically distancing	No complaints about physical space on the transport network from communities / residents wanting to gather	As changes to the transport network are planned and implemented
Vulnerable groups (most deprived)	Ensure the Action Plan supports areas that are 'transport poor' and people in areas of multiple deprivation	Improved and alternative transport links provided in more deprived areas  More connected communities with better links to essential services	Range of alternative transport options provided across the city	As changes to the transport network are planned and implemented
All	Assess wider impacts of temporary changes on the local economy and health to limit any	Communities more likely to be negatively impacted do not experience any worse outcomes as a	Fewer cases of financial hardship and /or health concerns amongst equality groups related to	As changes to the transport network are planned

	indirectly disproportionate impacts on any equality group	result of the temporary changes	access to transport	
--	---	---------------------------------	---------------------	--

**EIA sign-off:** (for the EIA to be final an email must sent from the relevant people agreeing it or this section must be signed)

**Staff member completing Equality Impact Assessment:** Katie Read

**Date:** 10 September 2020

**Directorate Management Team rep:** Mark Prior

**Date:** 14 September 2020

**CCG or BHCC Equality lead:** Anna Spragg

**Date:** 15 June 2020 (Sep update under review)

## Guidance end-notes

---

<sup>1</sup> The following principles, drawn from case law, explain what we must do to fulfil our duties under the Equality Act:

- **Knowledge:** everyone working for the council must be aware of our equality duties and apply them appropriately in their work.
- **Timeliness:** the duty applies at the time of considering policy options and/or before a final decision is taken – not afterwards.
- **Real Consideration:** the duty must be an integral and rigorous part of your decision-making and influence the process.
- **Sufficient Information:** you must assess what information you have and what is needed to give proper consideration.
- **No delegation:** the council is responsible for ensuring that any contracted services which provide services on our behalf can comply with the duty, are required in contracts to comply with it, and do comply in practice. It is a duty that cannot be delegated.
- **Review:** the equality duty is a continuing duty. It applies when a policy is developed/agreed, and when it is implemented/reviewed.
- **Proper Record Keeping:** to show that we have fulfilled our duties we must keep records of the process and the impacts identified.

NB: Filling out this EIA in itself does not meet the requirements of the equality duty. All the requirements above must be fulfilled or the EIA (and any decision based on it) may be open to challenge. Properly used, an EIA can be a tool to help us comply with our equality duty and as a record that to demonstrate that we have done so.

### <sup>2</sup> Our duties in the Equality Act 2010

As a public sector organisation, we have a legal duty (under the Equality Act 2010) to show that we have identified and considered the impact and potential impact of our activities on all people in relation to their 'protected characteristics' (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex, sexual orientation, and marriage and civil partnership).

This applies to policies, services (including commissioned services), and our employees. The level of detail of this consideration will depend on what you are assessing, who it might affect, those groups' vulnerability, and how serious any potential impacts might be. We use this EIA template to complete this process and evidence our consideration.

**The following are the duties in the Act. You must give 'due regard' (pay conscious attention) to the need to:**

- **avoid, reduce or minimise negative impact** (if you identify unlawful discrimination, including victimisation and harassment, you must stop the action and take advice immediately).
- **advance equality of opportunity.** This means the need to:
  - Remove or minimise disadvantages suffered by people due to their protected characteristics
  - Taking steps to meet the needs of people from protected groups where these are different from the needs of other people
  - Encouraging people from protected groups to participate in public life or in other activities where their participation is disproportionately low
  - Consider if there is a need to treat disabled people differently, including more favourable treatment where necessary
- **foster good relations between people who share a protected characteristic and those who do not.** This means:
  - Tackle prejudice
  - Promote understanding

---

<sup>3</sup> EIAs are always proportionate to:

- The size of the service or scope of the policy/strategy
- The resources involved
- The numbers of people affected
- The size of the likely impact
- The vulnerability of the people affected within the context

The greater the impacts, the more thorough and demanding the process required by the Act will be.

<sup>4</sup> **When to complete an EIA:**

- When planning or developing a new service, policy or strategy
- When reviewing an existing service, policy or strategy
- When ending or substantially changing a service, policy or strategy
- When there is an important change in the service, policy or strategy, or in the city (eg: a change in population), or at a national level (eg: a change of legislation)

Assessment of equality impact can be evidenced as part of the process of reviewing or needs assessment or strategy development or consultation or planning. It does not have to be on this template, but must be documented. Wherever possible, build the EIA into your usual planning/review processes.

**Do you need to complete an EIA? Consider:**

- Is the policy, decision or service likely to be relevant to a specific group or groups (eg: older people)?
- How many people is it likely to affect?
- How significant are its impacts?
- Does it relate to an area where there are known inequalities?
- How vulnerable are the people (potentially) affected?

If there are potential impacts on people but you decide not to complete an EIA it is usually sensible to document why.

<sup>5</sup> **Title of EIA:** This should clearly explain what service / policy / strategy / change you are assessing

<sup>6</sup> **ID no:** The unique reference for this EIA. If in doubt contact your CCG or BHCC equality lead (see page 1)

<sup>7</sup> **Team/Department:** Main team responsible for the policy, practice, service or function being assessed

<sup>8</sup> **Focus of EIA:** A member of the public should have a good understanding of the policy or service and any proposals after reading this section. Please use plain English and write any acronyms in full first time - eg: 'Equality Impact Assessment (EIA)'

---

This section should explain what you are assessing:

- What are the main aims or purpose of the policy, practice, service or function?
- Who implements, carries out or delivers the policy, practice, service or function? Please state where this is more than one person/team/body and where other organisations deliver under procurement or partnership arrangements.
- How does it fit with other services?
- Who is affected by the policy, practice, service or function, or by how it is delivered? Who are the external and internal service-users, groups, or communities?
- What outcomes do you want to achieve, why and for whom? Eg: what do you want to provide, what changes or improvements, and what should the benefits be?
- What do existing or previous inspections of the policy, practice, service or function tell you?
- What is the reason for the proposal or change (financial, service, legal etc)? The Act requires us to make these clear.

<sup>9</sup> **Previous actions:** If there is no previous EIA or this assessment if of a new service, then simply write 'not applicable'.

<sup>10</sup> **Data:** Make sure you have enough data to inform your EIA.

- What data relevant to the impact on specific groups of the policy/decision/service is available?<sup>10</sup>
- What further evidence is needed and how can you get it? (Eg: further research or engagement with the affected groups).
- What do you already know about needs, access and outcomes? Focus on each of the groups identified above in turn. Eg: who uses the service? Who doesn't and why? Are there differences in outcomes? Why?
- Have there been any important demographic changes or trends locally? What might they mean for the service or function?
- Does data/monitoring show that any policies or practices create particular problems or difficulties for any groups?
- Do any equality objectives already exist? What is current performance like against them?
- Is the service having a positive or negative effect on particular people in the community, or particular groups or communities?
- Use local sources of data (eg: JSNA: <http://www.bhconnected.org.uk/content/needs-assessments> and Community Insight: <http://brighton-hove.communityinsight.org/#> ) and national ones where they are relevant.

<sup>11</sup> **Engagement:** You must engage appropriately with those likely to be affected to fulfil the equality duty.

- What do people tell you about the services?
- Are there patterns or differences in what people from different groups tell you?
- What information or data will you need from communities?
- How should people be consulted? Consider:
  - (a) consult when proposals are still at a formative stage;
  - (b) explain what is proposed and why, to allow intelligent consideration and response;
  - (c) allow enough time for consultation;
  - (d) make sure what people tell you is properly considered in the final decision.

- 
- Try to consult in ways that ensure all perspectives can be considered.
  - Identify any gaps in who has been consulted and identify ways to address this.

<sup>12</sup> Your EIA must get to grips fully and properly with actual and potential impacts.

- The equality duty does not stop decisions or changes, but means we must conscientiously and deliberately confront the anticipated impacts on people.
- Be realistic: don't exaggerate speculative risks and negative impacts.
- Be detailed and specific so decision-makers have a concrete sense of potential effects. Instead of "the policy is likely to disadvantage older women", say how many or what percentage are likely to be affected, how, and to what extent.
- Questions to ask when assessing impacts depend on the context. Examples:
  - Are one or more groups affected differently and/or disadvantaged? How, and to what extent?
  - Is there evidence of higher/lower uptake among different groups? Which, and to what extent?
  - If there are likely to be different impacts on different groups, is that consistent with the overall objective?
  - If there is negative differential impact, how can you minimise that while taking into account your overall aims
  - Do the effects amount to unlawful discrimination? If so the plan must be modified.
  - Does the proposal advance equality of opportunity and/or foster good relations? If not, could it?

<sup>13</sup> Consider all three aims of the Act: removing barriers, and also identifying positive actions we can take.

- Where you have identified impacts you must state what actions will be taken to remove, reduce or avoid any negative impacts and maximise any positive impacts or advance equality of opportunity.
- Be specific and detailed and explain how far these actions are expected to improve the negative impacts.
- If mitigating measures are contemplated, explain clearly what the measures are, and the extent to which they can be expected to reduce / remove the adverse effects identified.
- An EIA which has attempted to airbrush the facts is an EIA that is vulnerable to challenge.

<sup>14</sup> **Age:** People of all ages

<sup>15</sup> **Disability:** A person is disabled if they have a physical or mental impairment which has a substantial and long-term adverse effect on their ability to carry out normal day-to-day activities. The definition includes: sensory impairments, impairments with fluctuating or recurring effects, progressive, organ specific, developmental, learning difficulties, mental health conditions and mental illnesses, produced by injury to the body or brain. Persons with cancer, multiple sclerosis or HIV infection are all now deemed to be disabled persons from the point of diagnosis.

<sup>16</sup> **Gender Reassignment:** A transgender person is someone who proposes to, starts or has completed a process to change their gender. A person does not need to be under medical supervision to be protected

<sup>17</sup> **Pregnancy and Maternity:** Protection is during pregnancy and any statutory maternity leave to which the woman is entitled.

---

<sup>18</sup> **Race/Ethnicity:** This includes ethnic or national origins, colour or nationality, and includes refugees and migrants, and Gypsies and Travellers. Refugees and migrants means people whose intention is to stay in the UK for at least twelve months (excluding visitors, short term students or tourists). This definition includes asylum seekers; voluntary and involuntary migrants; people who are undocumented; and the children of migrants, even if they were born in the UK.

<sup>19</sup> **Religion and Belief:** Religion includes any religion with a clear structure and belief system. Belief means any religious or philosophical belief. The Act also covers lack of religion or belief.

<sup>20</sup> **Sex/Gender:** Both men and women are covered under the Act.

<sup>21</sup> **Sexual Orientation:** The Act protects bisexual, gay, heterosexual and lesbian people

<sup>22</sup> **Marriage and Civil Partnership:** Only in relation to due regard to the need to eliminate discrimination.

<sup>23</sup> **Community Cohesion:** What must happen in all communities to enable different groups of people to get on well together.

<sup>24</sup> **Other relevant groups:** eg: Carers, people experiencing domestic and/or sexual violence, substance misusers, homeless people, looked after children, ex-armed forces personnel, people on the Autistic spectrum etc

<sup>25</sup> **Cumulative Impact:** This is an impact that appears when you consider services or activities together. A change or activity in one area may create an impact somewhere else

<sup>26</sup> **Assessment of overall impacts and any further recommendations**

- Make a frank and realistic assessment of the overall extent to which the negative impacts can be reduced or avoided by the mitigating measures. Explain what positive impacts will result from the actions and how you can make the most of these.
- Countervailing considerations: These may include the reasons behind the formulation of the policy, the benefits it is expected to deliver, budget reductions, the need to avert a graver crisis by introducing a policy now and not later, and so on. The weight of these factors in favour of implementing the policy must then be measured against the weight of any evidence as to the potential negative equality impacts of the policy.
- Are there any further recommendations? Is further engagement needed? Is more research or monitoring needed? Does there need to be a change in the proposal itself?

<sup>27</sup> **Action Planning:** The Equality Duty is an ongoing duty: policies must be kept under review, continuing to give 'due regard' to the duty. If an assessment of a broad proposal leads to more specific proposals, then further equality assessment and consultation are needed.
