 - Residents and visitors vulnerable to air pollution to plan their days when pollution levels are high.

This Council also agrees to request that:

- The Environment, Transport and Sustainability Committee explores investing in a city-wide real-time AQ monitoring system with information available in real-time via a website for residents, councillors and officers.
- The Tourism, Equalities, Communities & Culture Committee considers amending planning policy to ensure that all residential and business developments that come to planning committee install and maintain an AQ monitor with data available to BHCC.
