10.1	Total fully licensed Houses in Multiple Occupation (HMOs)	Info	3,574	1,335	n/a	n/a	3,460	1,335	n/a	n/a
These numbers have gone down as a result of the Additional Licensing Scheme finishing in February 2023.										
10.2	Corporate KPI: HMOs where all special conditions have been met (for licences issued over 12 months ago)	60%	65.00% (1,250 of 1,923)	66.43% (1,490 of 2,243)			56.50% (1,112 of 1,968)	66.43% (1,490 of 2,243)		
The indicator above measures cases where the council has verified that conditions have been completed and it is anticipated this figure will continue to rise over the course of the year. This still includes HMOs covered by the additional licensing scheme which ended on 28 February 2023, as the Private Sector Housing team are able to check that conditions have been met up to 6 months past the end of a scheme.										
10.3	New Q3: Requests for assistance received (RFAs)	Info	262	237	n/a	n/a	518	775	n/a	n/a
Request for assistance top categories during Q4 were 74 disrepair (32%) and 56 dampness (24%). The number of these requests received during the 2022/23 financial year (775) was a 33% increase upon the previous financial year (518).

10.9	New Q4: Properties with Category 1 and 2 hazards resolved through formal action (closed RFAs)	Info	-	2% (47 of 48)	n/a	n/a	-	-	n/a	n/a

These numbers relating to the two indicators above are relatively low for now as recording only began recently.

10.10	Private sector vacant dwellings returned into occupation (empty for more than two years)	9 per quarter (28 for 2022/23)	9	6			45	57		
-------	--	--------------------------------	---	---	---	---	----	----	---	---

Although this missed the target in Q4, performance was above target for 2022/23. This indicator used to apply to properties empty for longer than six months but was changed for 2022/23 to focus on properties empty for more than two years, which require more intensive casework. Most properties empty for less than two years do not require intensive casework and may often come back in to use without intervention. The chart below presents historic data on dwellings returned into occupation which had been empty for more than six months.

11.4	Council housing – average weeks taken for contractor to complete works	Info	16.6	16.5	n/a	n/a	-	21.1	n/a	n/a
<p>The amber threshold for the two targeted indicators above is set at 26 weeks based on historic guidance timescales, with the target of 10 weeks reflecting revised guidance timescales. As of 2022/23, we have been able to include two additional indicators measuring the average time taken to complete adaptations works.</p>

<p>We are planning to introduce new performance indicators relating to homelessness prevention and relief for 2023/24. The indicator above is not an ideal measure of performance, as lower numbers of preventions could occur because fewer people are being threatened with homelessness, rather than a lower proportion of overall cases resulting in a prevention.</p>

Rough sleeper estimates (yellow) and counts (blue)

The November 2020 figure above used a blended methodology of an estimate with a spotlight count, due to the national Covid lockdown at the time. Please note that estimates have only been carried out at times when counts have not been.

	Housing Needs – temporary accommodation (including emergency accommodation)	Target	Q3 2022/23	Q4 2022/23	Status against target	Trend since Q3	2021/22	2022/23	Status against target	Trend since 2021/22
13.1	Corporate KPI: Total households in temporary accommodation	1,700 or fewer	1,795	1,791			1,890	1,791		
13.2	... as above but excluding council NSAP and RSAP households	For info	1,757	1,715	n/a	n/a	1,859	1,715	n/a	n/a
For now the Corporate KPI on row 13.1 includes NSAP and RSAP households but will be revised for the next financial year to just cover households accommodated through homeless duties and service level agreements (SLAs) with Childrens' Services and Adult Social Care. The indicator on row 13.2 already accounts for this revision.										
13.3	Rent collected for emergency accommodation (year to date including loss from empty homes)	89.21%	95.24% (£3.0m of £3.1m)	95.60% (£3.9m of £4.1m)			80.41% (£4.9m of £6.1m)	95.60% (£3.9m of £4.1m)		
13.4	... as above but excluding rent loss from empty homes	For info	109.81% (£3.0m of £2.7m)	107.91% (£3.9m of £3.6m)	n/a	n/a	97.19% (£4.9m of £5.0m)	107.91% (£3.9m of £3.6m)	n/a	n/a
The indicator above (like the other rent collection indicators in this table) measures the actual amount of rent collected during the year to date, including recovery of arrears accrued from before, compared to the amount of rent due within the same period. It is sometimes possible for the former to be larger, thereby producing results over 100%.										
13.5	Rent collected for leased properties (year to date including loss from empty homes)	96.96%	86.56% (£4.6m of £5.3m)	87.22% (£6.3m of £7.2m)			85.59% (£6.7m of £7.8m)	87.22% (£6.3m of £7.2m)		
The service is working to bring the rent collection rate for leased properties in line with the rate for Seaside Homes, building upon recent successes in bringing the latter back on target. Performance excluding rent loss from empty homes was 92.49% which is closer to target.										
13.6	... as above but excluding rent loss from empty homes	For info	92.08% (£4.6m of £4.9m)	92.59% (£6.3m of £6.8m)	n/a	n/a	92.91% (£6.7m of £7.2m)	92.59% (£6.3m of £6.8m)	n/a	n/a

13.9	Empty temporary accommodation homes	For info	62	35	n/a	n/a	99	35	n/a	n/a
<p>The indicator above includes 16 block-booked, 8 private sector leased and 11 Seaside Homes dwellings. These are dwellings that were available to let as temporary accommodation. The total including dwellings unavailable to let (such as those with their providers for works or awaiting handback) was 80 at the end of 2022/23, a reduction from 219 the end of the previous financial year.</p>										
13.10	Seaside Homes properties with a valid Landlord's Gas Safety Record	100%	99.8% (421 of 422)	99.3% (420 of 423)			100% (426 of 426)	99.3% (420 of 423)		
<p>The target was slightly missed because three checks were overdue on 31 March 2023.</p>										
13.11	Leased properties with a valid Landlord's Gas Safety Record	For info	83.5% (475 of 569)	82.5% (463 of 561)	n/a	n/a	82.9% (505 of 609)	82.5% (463 of 561)	n/a	n/a
<p>The reduction in performance during Q4 was partly due to a transfer of information onto the housing management IT system from an older database and a temporary reduction in staffing. The proportion of successful access is expected to improve significantly in the next quarter now that the systems issues and staffing resource has been resolved.</p>

<p>The Q3 figure above is a forecast for the 2022/23 financial year and the Q4 figure is the final result for the year. The methodology excludes rent loss from empty properties and includes arrears from the end of the previous financial year. Although there was a decline in the rent collection rate of 1.64 percentage points over the course of the 2022/23 financial year, this was 1.08 during the first half and 0.56 during the latter half, so this decline has been slowing. A recovery plan is being implemented to reduce arrears and vacancies in the Income Management team are being recruited to, which should improve collection rates. The team will also be reviewing its approach to income collection, working closely with the council's corporate debt board to implement a 'training standard.'</p>

<p>Re-let times have improved but are still high while recovery efforts remain underway to tackle a backlog of empty council homes, which includes many homes which have been empty for long periods of time. However, the number of re-lets during 2022/23 (560) and 2021/22 (472) were both up on 2020/21 (213) and above pre-pandemic levels seen during 2019/20 (445). Furthermore, the number of empty homes has decreased from 251 to 180 during the 2022/23 financial year. The latter figure includes 35 new dwellings at Victoria Road in Portslade which had not been let by the end of the financial year (out of a total of 42 new dwellings completed at the scheme in March 2023).</p>

Please note the figures for the first three indicators in the table below are provisional as there are currently issues with reporting of repairs data arising from the switchover of our main housing management IT system since the start of July 2021. At present two IT systems are being used and it is not yet possible to fully integrate reporting between them, meaning that performance data is currently being extracted and manually combined.

16.3	Average time to complete routine repairs (calendar days)	15	83	81			46	74		
<p>Routine repairs completed during 2022/23 have included jobs from a backlog built up during the previous two financial years (impacted by Covid-19 in particular during 2020/21) and due to reduced staffing levels and availability of contractors. This means that these jobs took longer than their target timescales once they were completed, as well as impacting on capacity to carry out repairs more generally. Although recruitment is challenging, additional resources continue to be recruited to Repairs & Maintenance to address the backlog of repairs and sub-contractors have been mobilised to increase capacity. There have been ten agreed additional posts which are currently being recruited to. There have also been increased pressures in this period owing to significantly higher levels of reported damp and condensation cases following the tragic Rochdale case. Repairs & Maintenance had registered 1,394 live damp and condensation cases at the end of 2022/23.</p>

There had been a lack of planned installations of new kitchens and bathrooms throughout much of 2020/21 and 2021/22 due to Covid restrictions, shortages of supplies and components. Performance is expected to improve with the Housing Committee decision to approve the appointment of up to two new contractors for kitchens and bathrooms.										
17.2 Corporate KPI: Energy efficiency rating of homes (out of 100)	72.3	74.0	74.1			68.2	74.1			
The increase between 2021/22 and 2022/23 is partly due to the procurement of new energy modelling software, which came into use for reporting this indicator during Q3 2022/23 and involved extensive updates to the underlying data in order to reflect improvements made to the council housing stock, such as boiler replacements and new windows.										
17.3  Council properties with a valid Landlord's Gas Safety Record	100%	100% (10,104 of 10,104)	99.98% (10,108 of 10,110)			100% (10,044 of 10,044)	99.98% (10,108 of 10,110)			
The target was slightly missed because two checks were overdue on 31 March 2023.										
17.4  Lifts restored to service within 24 hours	95%	93% (162 of 174)	92% (147 of 160)			92% (954 of 1,038)	91% (530 of 582)			
Difficulties and delays in sourcing spare parts from European supply chains remains a challenge. In response, the council and lift contractor invested £34k last financial year on critical spares and continue to add to this as and when new situations develop. Whilst this does not stop breakdowns through wear and tear we have seen reduced downtime from weeks to hours in a lot of instances.
