## Parking Customer Service Policies

### Introduction

These documents form the operational guidance and strategic link for Parking Customer Services. It gives clear direction and limitations on decisions officers make.

**Approval committee date: Transport & Sustainability committee Dec 2023**

### 1.2 Aim of Policy

This policy document sets out the eligibility requirements for obtaining a concession, parking permit, or requesting changes to parking permits. In addition to meeting audit requirements the approval of this document formalises the procedures already in place, promotes consistency, and supports officers in their decision making to ensure only those eligible receive the concession.

### 1.3 Policy Scope

The policy is subordinate to any legislation, central government guidance or local corporate policy that covers these areas of administration.

### 1.4 Council's Corporate strategy

The parking policy is directly linked to improving access to the city for disabled people, by allowing Blue Badge holders to park in permit bays in light touch parking schemes and encouraging residents to make choices that support the council's carbon neutral strategy.

### 1.5 Equalities Impact Assessment

The Equalities Impact Assessment has reviewed practices in place and has proposed some additions to improve access to the city for a wider group of disabled people by changing the criteria for a significantly discounted disabled residents permit from being a Blue Badge holder to being a Blue Badge or disabled bus pass holder will be fully explored and considered ahead of next year's fees and charges committee. It also proposes reducing the age residents can purchase visitor permits to 16 to be more inclusive to younger residents.

All fees and charges for parking permits can be found in the latest fees and charges committee documents. The cost may vary depending upon, if the permit holder is also a Blue Badge holder or lives with a Blue Badge holder, car emissions, Controlled Parking Zone (CPZ) and how many vehicles are in a household.

For all permit types:

- Permits without a specific VRM (ie those that display “ANY”) will be processed and charged at the High Emissions price.
- Permits with a foreign VRM, where the emissions cannot be established will be calculated at the Normal Emissions price.

Please see appendix 1 for acceptable proofs **if we are unable to verify Council Tax**.

Only the accepted documents listed in appendix 1 will be accepted.

Only lease/hire agreements in excess of 6 months will be accepted. Shorter lease/hire agreements will not qualify for a Resident Permit. Concessions will only be made in exceptional circumstances and at the service manager discretion.

All applicants will be required to complete an application for assessment and the vehicle's Co2 emissions charge band will be automatically matched.

All applicants who hold a **valid Brighton & Hove issued** Blue Badge will be required to provide the Blue Badge number to claim the permit charge waiver.

In cases where the applicant has applied for a Blue Badge which has not yet been granted at the time of the resident permit application, the full permit charge will apply. However, a pro rata refund may be claimed once the Blue Badge is granted.

All applicants will be required to prove their vehicle length, weight and height if required to facilitate the application assessment.

Any vehicle exceeding 6 metres in length, 2540Kg in weight or 2.25 metres in height will not qualify for a resident's parking permit. Concessions will only be made in exceptional circumstances and at service manager discretion.

All applicants are required to declare that they agree to have their Council Tax records checked to facilitate the assessment process.

All applicants will be required to declare their application address is:
