### 1. Purpose of the report and policy context

The Gambling Act 2005 requires Licensing Authorities to prepare, every three years, a statement (also known as a Policy) of the principles which they propose to apply when exercising their functions, and they must publish the statement following the procedure set out in the Act, including whom they should consult.

### 2. Recommendations

- 2.1 That members agree to refer the final version of the Statement of Gambling Policy 2025 - 2027 to Full Council for adoption. (Appendix 1)
- 2.2 That the final Statement of Gambling Policy is presented to Full Council

### 3. Context and background information

- 3.1 Brighton & Hove's gambling policies and practices has been highlighted by the Gambling Commission as an example of good practice, in particular the work and links developed with Public Health to tackle gambling related harm.
- 3.2 The policy went through a comprehensive review for the 2016 version, where Licensing officers, in conjunction with colleagues from the Public Health analyst team re-wrote the Gambling Statement of Principles. A further review took place for the 2019 and 2022 version, where changes included increasing awareness of mental health issues and concerns about the use of privacy booths.

3.3 The consultation took place between 9 August 2024 and 15 September 2024 and followed the Council’s Officer’s Code of Practice on Consultation. The consultation elicited a total of 5 response’s which are available on request. The policy will go to the Licensing Committee for approval on 10 October 2024, following this the Policy will go to a meeting of the Full Council for approval on 24 October 2024. There are no policy changes in this statutory review, it has just been updated to reflect current facts and figures. We have continued to liaise with the Gambling Commission and have been advised there are no major national changes to the Guidance for Local Authorities document that will affect local policies. Local authorities are awaiting the completion of the government review of the White Paper on gambling. This review is expected to provide essential insights that will inform future updates to the Gambling Policy. We will consider these updates to ensure our strategies align with the latest government guidance on managing gambling-related issues in our community.

The public health team is currently engaged in a comprehensive update of the local area profile (LAP) to ensure it accurately reflects the current landscape of gambling-related issues within our community. This important work involves gathering and analysing data, assessing local trends, and identifying specific risk factors that may affect public health. Due to the extensive nature of this update, the LAP will not be available for inclusion in this committee report. However, we are committed to providing a robust and informative profile that will guide future decisions and strategies for mitigating gambling-related harms once the update is complete.

*Finance Officer Consulted: Michael Bentley*

*Date: 16/09/24*

### **6.1 Legal implications**

Local authority responsibilities include upholding licensing objectives, publishing a three year licensing policy, determining applications for premises licences and regulating members clubs – club gaming and machine permits. The Licensing Committee established under section 6 of the Licensing Act 2003 has authority to exercise functions under the Gambling Act 2005 with the exception of: a resolution not to issue casino licences, the three-year licensing policy (full council) and setting fees.

### **6.2 Equalities implications**

Protecting children and other vulnerable persons from being harmed or exploited by gambling is one of the licensing objectives. The Act does not seek to prohibit particular groups of adults from gambling in the same way that it prohibits children. "Vulnerable persons" will not be defined but for regulatory purposes the assumption is that this group includes people who gamble more than they want to, people who gamble beyond their means, and people who may not be able to make informed or balanced decisions about gambling due to a mental impairment, alcohol or drugs. Operators should encourage where appropriate, strategies for self-help and provide information on organizations where advice and help can be sought.

With limited exceptions, the intention of the Gambling Act is that children and young persons should not be permitted to gamble and should be prevented from entering those gambling premises which are adult-only environments.

### **6.3 Sustainability implications**

None

**6.4 Other Implications** [delete any or all that are not applicable]

None

**6.5 Crime & disorder implications:**

Gambling Commission inspectors have the main enforcement/compliance role. The police and licensing authority officers have powers of entry and inspection.

**6.6 Gambling licensing objectives are:**

- (a) Preventing gambling from being a source of crime and disorder, being associated with crime and disorder, or being used to support crime
- (b) Ensuring gambling is conducted in a fair and open way
- (c) Protection children and other vulnerable persons from being harmed or exploited by gambling.

**6.7 Corporate/Citywide Implications:**

Licensing authorities licence all gambling premises in the city: casinos, bingo, betting, tracks, adult gaming centres, family entertainment centres as well as administering notices and granting gaming permits.
