Families, Children & Wellbeing

Section	Service Area	Brief Summary of Budget Proposal / Strategy and Risks	Total Savings Proposed 2025/26 £'000
Commissionin	g & Communities		
Community Cohesion	Community Safety	To take a 'one council' approach to unauthorised encampments and work collaboratively to achieve efficiencies as the statutory element of this work is covered in other council directorates. Delivery Risk: Removal of 2 fte posts will impact upon	90
		ability to respond in a timely and effective way. See EIA 1 in Appendix 7	
Third Sector	Thriving Communities Fund	Replacement of a proportion of core funding for the Thriving Communities Fund with Community Infrastructure Levy (CIL) funding received from developers over the period of the Medium-Term Financial Plan. The Thriving Communities Fund will therefore be maintained at the current level while the alternative funding source provides a saving to the General Fund budget.	184
		Delivery Risk: The Community Infrastructure Levy funding will be one-off over the 4-year period of the MTFS. Therefore, other future funding sources will need to be found at the end of this period to mitigate the risk of a loss of activity.	
Libraries	Library services	Review of Library services over a two-year period which results in the following proposals: Reduced opening hours at the Jubilee and Hove Libraries, as well as a review and closure of some community libraries (£0.069m).	111

Section	Service Area	Brief Summary of Budget Proposal /	Total
		Strategy and Risks	Savings
			Proposed
			2025/26
			£'000
		A reduction in the Home Delivery service to be achieved	
		by deleting vacant posts (£0.027m). It is anticipated that	
		current service needs are manageable within the current	
		staffing levels.	
		Delivery Risk: If library closures are implemented, the	
		Home Delivery Service may have an increase in uptake	
		to mitigate impact on those less able to travel. However,	
		this is expected to be offset by a move toward e-	
		resources.	
		See EIA 2 in Appendix 7	100
Quality Assurance	· ·	Through having a Pan Sussex Policies and Procedures	123
Performance	Hove Safeguarding Children's Partnership (BHSCP)	website and an in-house practice guidance 'One Space'	
	and independent reviewing officers.	for Social Workers, it is proposed to decommission	
		Brighton & Hove Children's Service Policies and Procedures Website (£0.010m).	
		Flocedules Website (£0.010iii).	
		Delivery Risk: Risk of Social Workers not using the	
		correct Policies and Procedures which will be mitigated	
		through a communication strategy about the changes.	
		Many Social Workers already use the Pan Sussex	
		policies and all use 'One Space'.	
		Also, a proposal to reduce the Safeguarding and Review	
		Service by 1.0 fte (£0.080m). Additionally, other	
		efficiencies, and seeking required contributions from	
		partners for safeguarding services (£0.033m).	
		Delivery Risk: This may impact on the service's ability to	
		carry out the statutory reviewing (IRO) function to monitor	
		Children in Care (CIC) and oversee Child Protection (CP)	

Section	Service Area	Brief Summary of Budget Proposal / Strategy and Risks	Total Savings Proposed 2025/26 £'000
		Plans. This is mitigated through shared roles and maintaining lower CP and CIC numbers. See EIA 3 in Appendix 7	
Skills & Employment	Employability Service-Supported Employment Team (Youth Employment, Youth Employment Hub and Supported Employment)	Alternative government funding programme identified to replace General Fund contribution. Delivery Risk: Minimal as alternative funding is anticipated.	275
	Communities Total		783
Education & Lear			
	Bright Start, 50 places full day/year. Total budget including Dedicated Schools Grant (DSG) is 446k. Council subsidy 23%. Total number of children excluding babies Summer 22 - 47 including 12 funded 2 year olds, 9 Early Years Pupil Premium and 5 ASF Autumn term numbers 62 (10 under 2's, 19 2's and 33 3-4's). Located in the 40% most disadvantaged areas of the city. Average percentage of children in receipt of EYPP 27.4%. Average percentage of children living in the 0 to 20% most disadvantaged areas of the city 47.3%. Average number of disadvantaged two year olds attending who are in receipt of EYFE 10.	Efficiency saving realised from the nursery provision moving to Tarner Family Hub during 2024/25 .	85
Other Educational	This includes school organisation function within	Saving in administration support as a result of school	27
support	Education & Learning	organisational changes in addition to the Organisational Redesign of Education and Learning.	
Education & Learn	ning Total		112
Family Help & Pro	otection		
Adoption Southeast	Regional Adoption Agency	Adoption South-East has identified efficiency savings of 10% which has resulted in savings for all Local Authority partners.	74

Section	Service Area	Brief Summary of Budget Proposal / Strategy and Risks	Total Savings Proposed 2025/26 £'000
Agency Placements	Residential, fostering and secure placements for looked after children provided by external agencies	Project to increase the number of in-house foster placements and reduce reliance on more expensive independent provider provision is ongoing. Provision of high quality, value for money provision though contracted services with external providers supported by the children's services framework contract arrangements and preferred provider guidelines. In addition to the savings proposed, there was pressure funding provided in 2023/24 to cover anticipated increased costs for existing clients. Relationship-based social work practice and the specialist adolescence service is contributing to diverting children from the care system, and for those already in care, a stepping down to in-house and/or less expensive placements. Close scrutiny of placement costs, together with an increase in in-house foster carers is contributing to a reduction in unit costs. Delivery Risk: This is a high cost service where the failure of effective prevention and demand management would not only impact on the achievement of cost reduction but is likely to be of corporate financial significance to the council's challenging medium term financial position. The proposals set out here assume that other identified pressures on this budget will be met across the overall budget. A small number of adolescents with very significant needs continue to place pressure on these budgets combined with a national shortage of placements.	

Section	Service Area	Brief Summary of Budget Proposal / Strategy and Risks	Total Savings Proposed 2025/26 £'000
		Impact on Outcomes: The council's improved practice model prevents children needing care and contributes to improved outcomes for young people. Demand management has implications for managing risk effectively to meet safeguarding requirements and statutory duties. See EIA 5 in Appendix 7	
Agency Placements – Disabled Children	Independent and non-maintained children's homes, special schools and boarding school placements	The establishment of Rainbow Lodge, a 4-5 bed in-house residential provision to reduce reliance on expensive placements is already in progress. Savings of £0.504m have already been reported for this project, anticipated to increase by a further £0.200m.	200
Family Hubs including Supporting Families Grant	The Family hubs transformation completes in September 2024 with the new model in place to deliver support for children, young people and families.	Stop use of the Hollingbury and Patcham as a satellite Family Hub and find alternative users for the building to achieve economies.	15
Fostering & Adoption	Staffing teams assessing and supporting foster carers.	Reduction of 0.4 fte social work vacant post. Risk: This work is budget sensitive as placement savings rely on stable foster placements.	85
	Allowances paid to Adopters	Additionally, there has been a reduction in the number of adopters to support adoption payments, therefore a proportion of this budget can be released.	
Services for children with disabilities	Residential, respite and short breaks.	Generate income and improve short break offer through external use of vacated flats at Drove Road.	225
		Delivery Risk: Income generation target not met due to low take up of offer. See EIA 6 in Appendix 7	
Social Work	Social work staffing teams.	Review and reduction of social work staffing across social work pods, resulting in a reduction of social workers by	100

Section	Service Area	Brief Summary of Budget Proposal / Strategy and Risks	Total Savings Proposed 2025/26 £'000
		1.6 fte. This will be managed through vacancy management.	
		Delivery Risk: This may impact upon caseloads leading to possible adverse effect on staff retention. Could result in risk of needing to use agency social work staff with associated increased costs. See EIA 7 in Appendix 7	
Youth Services	The Youth Led Grants Programme provides additionally funded youth activities/projects delivered by the community and voluntary sector across the city.	Cessation of the remaining Youth-Led Grants programme. This would result in youth projects/activities not being funded, and this would impact on young people aged between 11 – 19 years (up to 25 if they have special educational needs). See EIA 8 in Appendix 7	40
Family Help & P	rotection Total		1,563
Public Health			
Sexual Health	Care pathway for sexual dysfunction (female)	Proposed withdrawal of the council's contribution to this service. Delivery Risk: The service is an NHS responsibility and	43
		will therefore continue to be provided. The risk is low and is not expected to impact significantly. See EIA 9 in Appendix 7	
Sexual Health	Programmes supporting HIV prevention	Reduced contributions to some external organisations are proposed. These include contributions to Gscene, Mind Out, HIV fast-track cities anti-stigma, Young people sexual health services, and the Tarriff Group service. Delivery Risk: These are all small contributions in the	25
		context of over £4 million Sexual Health funding where the reduced contribution is not expected to significantly	

- 1		
4	9	
C		Ì

Section	Service Area	Brief Summary of Budget Proposal / Strategy and Risks	Total Savings Proposed 2025/26 £'000
		impact sexual health services overall but may result in some reduced activities. See EIA 10a, 10b, and 10c Appendix 7	
Drugs and alcohol programme	GP Alcohol brief interventions	Small reduction in contribution. Delivery risk: Low risk in the context of nearly £5 million investment in the overall programme. See EIA 11 Appendix 7	14
Healthy Child Programme	Healthy Child Programme Core Service	Reduced contribution to the core service. The core health visiting checks are mandated which means roles cut from the Sussex Community NHS Foundation Trust contract due to removal of this funding will only be those providing additional support such as SEND support, meaning some reduction in safeguarding activity and school nursing activity. Delivery Risk: This is a relatively small element of the overall £5.3 million NHS service but will impact on additional support for families with babies and children awaiting diagnosis or diagnosed with special educational needs or disabilities.	100
Healthy Child Programme	Other services and programmes	Cessation of the 'Audio Active delivering the Shift' project and small reductions in contributions to the Schools Programme and YMCA Mental Health Champions project. Programmes support young people at risk of criminal and sexual exploitation, work on improving physical activity and healthy eating and include extension of the YMCA project to 2 primary schools. Delivery Risk: The aim is to try and fund some of this work in the short term using the DATRIG (Substance Misuse) grant. If confirmed, funding will be short term otherwise this work will cease resulting in some	44

4
ശ
_

Section	Service Area	Brief Summary of Budget Proposal / Strategy and Risks	Total Savings Proposed 2025/26 £'000
		reduction in activities and support and no extension of the YMCA project to primary schools. See EIA 12 Appendix 7	
NHS Health Check programme	GP delivered service (Mandated programme)	The proposal is to explore a different delivery model e.g. an on-line service with only high risk referrals going through to the GP. Delivery Risk: Requires longer term evaluation to understand any potential impact. See EIA 13 Appendix 7	100
Weight Management	Community weight management programme for children and adults - Thrive Tribe	A 10% reduction to the programme is proposed. Obesity and weight management is a key issue for prevention services including CVD, diabetes, etc. however treatment <i>is</i> an NHS responsibility. Delivery Risk: May have some impact on activity and availability. See EIA 14 Appendix 7	40
Physical activity	Dance Active Event Costs	Reduced contributions to Dance Active Events and the initiatives budget are proposed. Delivery Risk: These are all small contributions where the reduced contribution is not expected to significantly impact Physical Activity services overall but may result in some reduced activities. See EIA 15 Appendix 7	9
Mental Health and Suicide prevention	Mental health support service Joint budget with NHS. The BHCC elements are specific to Public Health outcomes in targeted suicide prevention. NHS contribution £1.7m.	Small reduction in contribution proposed. The service has already seen a 30% cut in Local Authority and 15% cut in NHS funding previously. This will further reduce involvement of communities in shaping services, and vulnerable communities will be less well supported through messaging and access, and fewer staff will be trained. Delivery Risk: A small reduction in the context of overall NHS investment however there are high rates of suicide	20

C	Л
C	2

Section	Service Area	Brief Summary of Budget Proposal / Strategy and Risks	Total Savings Proposed 2025/26 £'000
		in the city, particularly for women. This could also increase the vulnerability of the various charities that are funded to provide these services. See EIA 16 Appendix 7	
Ageing Well	Ageing well delivered by Impact Initiatives	A proposed 10% reduction to the contract which has only recently been awarded. Delivery Risk: Potentially some reputational risk with the provider, however, the council's financial challenges are known across the sector and the city. See EIA 17 Appendix 7	45
Neighbourhood programmes	Warm homes, fuel poverty strategy	A reduced contribution is proposed which will reduce allocations to deprived people in B&H. Delivery Risk: Other programmes or funding such as Household Support Fund, BHESCO and Warmth for Wellbeing with SGN should mitigate impact. See EIA 18 Appendix 7	15
Healthcare Public Health (HCPH)	Oral health promotion and epidemiology – SC NHS FT delivered	A 10% reduction to this NHS service is proposed. Delivery Risk: DATRIG funding will be explored but otherwise this will reduce the offer to B&H residents and will mean focusing on higher risk groups with 24% of the population reported to have no access to dentists, and 29% of children have untreated dentally decayed teeth affecting eating, speaking, sleeping and socialising. See EIA 19 Appendix 7	9
НСРН	Health promotion incl. resources and cancer screening, workplace wellbeing, and library	Proposed reduction to the TDC screening promotion project (jointly funded between LA and NHS), and cessation of Health Promotion Training and the Workplace Wellbeing programme (currently not staffed). Also removal of a contribution to the joint BHCC and ESCC Health Promotion Library staffing and 50% reduction in printing and design work. Delivery Risk: Reduction in health promotion activities.	73

Section	Service Area	Brief Summary of Budget Proposal / Strategy and Risks	Total Savings Proposed 2025/26 £'000
		See EIA 20 Appendix 7	
Staffing	Public Health Team	The proposal is to substantially restructure the service including deleting a number of currently vacant posts representing a 16% budget reduction overall and a potential reduction of 12 to 14 FTE posts. Delivery Risk: Long term vacancies represent 4% of the reduced posts but the remaining 12% staffing reduction will have a significant impact on research and intelligence resources as well as support for commissioning and contract management, service delivery and an impact on partnerships and policy development.	565
Public Health	Total		1,102

Housing People Services (G			
Temporary and Supported Accommodation	Temporary Accommodation	The implementation of a strategy to increase the supply and reduce the cost of leasing from private sector landlords for the use of Temporary Accommodation. This includes the following proposals: Setting up new initiatives to Incentivise Landlords to undertake private sector leasing to the council (£0.210m). This includes implementing an Invest to save initiative where the council would provide grants to improve landlord properties EPC rating in exchange for sustaining Temporary Accommodation tenancies for an agreed period. Delivery Risk: A lower than anticipated take up of the schemes which would risk the delivery of the savings. Partnering with private investment companies to source Temporary Accommodation properties on a long-term lease (£0.195m), offering a low risk long term income to investors. This will result in longer term cost certainty and supply for Temporary Accommodation (TA). Delivery Risk: Specialist advice will need to be sought due	405
		diligence before entering into a long-term arrangement.	
Temporary and Supported Accommodation	Rough Sleeper Commissioned services	A service redesign is proposed to be undertaken to join the commissioning teams for both Housing and Adult Service Care	350

City Infrastructure			
Parking Services	Parking Services	A re-focus of the transport control centre activity to monitor cross council services, including monitoring risk in HRA LPS and high-rise buildings (£0.293m) which will be generated from charging the associated costs to the HRA. Delivery Risk: The traffic monitoring will reduce as a result of the refocus, which may have an impact on response times for high profile events as well as impact on the general network, such as network blockages and over run of highways works. When works progress on the HRA high rise blocks, alternative funding will need to be sought as the focus on the HRA reduces. The introduction of new light touch parking schemes across the city would generate additional income (£0.070m). These schemes are generally supported by the identified residential areas to address parking challenges. See EIA 25 in Appendix 7	363
Network Management	Network Management	A redesign of the Highways Operations Team (£0.050m) to focus the activity on key programmes of works to protect and maintain the city's highways infrastructure will result in efficiencies and the deletion of 1 fte post. Delivery Risk: The redesign would put staff at risk of redundancy. Increasing of Highways Licencing Fees (£0.016m) to cover the cost of providing the service. See EIA 26 in Appendix 7	66

Section Culture and Environment	Service Area	Brief Summary of Budget Proposal/Strategy and Risks	Total Savings Proposed 2025/26 £'000
Parks and Leisure	City Parks Operations & Arboriculture	 A number of savings proposals for the service as follows: Generating income through developing a scheme for donations programmes to promote charitable giving to heritage infrastructure (£0.020m); Identifying sponsorship for the annual Palmeira Square Christmas tree (£0.008m); Reduction of overtime within the service, implementing alternative working methods (0.024m); Leasing sites within City Parks to mobile commercial operators (£0.060m) such as dog groomers and coffee shops; Selling timber from felled Ash & Elm trees (£0.025m). These needs different strategies as a result of differing risks and markets: Sell elm timber for construction, landscaping or furniture manufacture, also reducing the amount of elm timber needing to be disposed of by burning as per the existing Elm Disease control program. This would require debarking or strict control of where the timber went to avoid the risk of elm disease spread. Directly sell the ash that is cut down in our woodlands for use by biomass power stations, rather than allowing contractors to take it as part payment for the work they are doing. Delivery Risk: Infection risk needs to be strictly managed for Elm timber, with strict compliance of (and enforcement of) merchants not to sell any elm back to the market as firewood 	142

Section	Service Area	Brief Summary of Budget Proposal/Strategy and Risks	Total Savings Proposed 2025/26 £'000
Costion	Oct vide Area	Form a coordinated primary authority partnership and manage resources to reduce and/or recharge internal costs for managing the 'Purple Guide' for outdoor event organisers (£0.005m).	2 000
Culture and Environment Tota	ĺ		388
Environmental Services			
City Clean	Commercial Waste	Increase the provision of trade waste services and extend garden waste collections to respond to the high demand for these services across the city. Fees will also be increased to reflect the cost of providing the service.	268
		Delivery Risk: The introduction of Simpler Recycling may impact on the council's ability to deliver a competitive recycling offer. See EIA 28 in Appendix 7	
City Clean	Customer Services	The demand for customer services has reduced, therefore the service can be remodelled to reflect reduced demand for customer support, resulting in a reduction of the team of 1 fte.	35
Environmental Services Total			303
Place			
Architecture & Design	Architecture & Design	Reduce Architecture and Design expenditure on professional consultants' fees. The need for consultancy will reduce as the council's capital programme reduces different construction procurement routes are explored and used.	215
		Delivery Risk: this may impact on delivery timescales and reduce the availability of expertise. However, consultants can be procured for specific projects where required to mitigate this.	
Development Planning	Building Control	Cease the dangerous structures rota. No visits to dangerous structures out of hours as new Building Control competencies mean we are not able to give advice on structural integrity. Instead fence off the Highway and make safe (£0.010m).	16

Section	Service Area	Brief Summary of Budget Proposal/Strategy and Risks	Total Savings Proposed 2025/26 £'000
		General revenue from charging for demolition notices, which is in line with other, similar, local authorities (£0.006m).	
Net Zero	Net Zero	Capitalisation of project resources for climate change projects as and when projects are agreed.	65
		Delivery Risk: The strategy depends upon the availability of projects to capitalise resources against. Therefore 1 fte post will	
		remain vacant until the project pipeline is confirmed to ensure the saving is met.	
Planning Policy and Projects	Planning Policy Team	Redesign the Planning Policy Team following the recent wider organisational redesign, which is likely to lead to a reduction of 1.6 fte.	94
		Delivery Risk: reducing the team's capacity may impact on the timescales of delivery for the local plan and planning guidance	
Regeneration	Regeneration Team	Reduce Regeneration team initiatives budget.	3

Cabinet Office	Oci vice Area	Brief Summary of Budget i roposal/offategy and Nisks	2 000
VisitBrighton	VisitBrighton	Bring the management of VisitBrighton public relation function to be run in-house, and review and reduce the marketing and conference sales activity. Delivery Risk: Reduction of marketing could impact on the local tourist economy and income for VisitBrighton, hotels and venues.	100
Cabinet Office Total		venues.	100
Finance and Property			100
Audit (MOBO)	This budget relates to a number of small items including NAFN and training retained by BHCC. All other Internal Audit budgets are held within Orbis (See 'Contribution to Orbis').	Proposal to remove this budget. Only small amounts of expenditure are historically charged to this budget and can instead be covered in the Orbis operational budget.	10
Property	Estates Management	Seek to obtain vacant possession of two identified properties within the council's estate to deliver building related savings. Options will then be explored for the future use or disposal of the buildings. Delivery Risk: Both buildings are expected to be unoccupied shortly (termination notices received) and therefore vacant possession should be achievable within a timescale to achieve the full saving.	25
Property	Education Property Management	Reduce the in-house maintenance budget for education capital.	10

			Total Savings Proposed
Section	Service Area	Brief Summary of Budget Proposal/Strategy and Risks	2025/26 £'000
Welfare Revenue & Business Support	Housing Benefit Administration Grant (within Corporate Unringfenced Grants)	A transfer of work to the Department of Work & Pensions over the next two years results a reduction of workload and therefore the ability to review and reduce resources accordingly. This is expected to result in approximately 8.5fte reduction in 2025/26 (£0.300m).	610
	NNDR Running Expenses Welfare Reform	Availability of new database analysis services to review database integrity issues will result in administration efficiencies that can be realised when the contract is procured in 2025/26 (£0.020m).	
		Review the Welfare Reform funding model to reduce delivery costs. The use of alternative funding, such as the Household Support Fund, to fund preventative services will mitigate against the reduction of the service delivery (£0.290m).	
Finance and Property Total			655
Governance and Law	Caranar Carriaga & Dagiatrar	A 4 CO/ staffing viscous of setamodilibe smalled source the source	12
Coroner Services & Registrar Services	Coroner Services & Registrar Services	A 4.6% staffing vacancy factor will be applied across the service to reflect and manage turnover rates of staff. Delivery Risk: Reduces available resources to manage demands and meet statutory duties but is based on prevailing	12
Elections	Elections	turnover rates which are currently being managed. A service redesign is proposed which will consider staffing levels required following continued process efficiencies, the Elections Act delivery and completion of ward/parliamentary boundary reviews. Service levels will be maintained despite a leaner structure.	15
Legal Services	Legal Commercial Services	Generation of increased income by restructuring fees for commercial leases (0.055m).	105

		A service redesign will also aim to achieve staffing efficiencies of approximately 1.2 fte (£0.050m) with work to be absorbed by the wider Team, supported by increasing use of new technologies.	
Governance and Law Total			132
People and Innovation Facilities & Building Services	Print Services	Small in-house confidential print service to cease (£0.006m). Confidential print services will continue only on a case-by-case basis, and it is proposed that any future service would be accompanied by a charge.	57
	Courier Services	Modernise and redesign in-house courier service (£0.051m). This will involve restructuring and reduction in existing staffing resources of approximately 1.5 fte and reshaping of roles.	
HR & Organisational Development	Learning & Organisational Development Health & Safety and Occupational Health	The Learning & Organisational Development team and the Equality, Diversity and Inclusion team are being bought together under the organisational redesign. The team will be redesigned as well as undertaking further work to consider functional alignment in bringing together equality work undertaken across the council. These changed are expected to reduce the resources across both teams by approximately 1.5 fte (£0.080m).	159
	оссирацопат пеацт	Reduction in cost relating to efficiencies based on review and exploitation of opportunities in relation to technology including a potential staff resourcing reduction (£0.030m). Delivery Risk: Any potential redesign of the service will require careful risk management to ensure all activities and functions of the department can be maintained and BHCC Health, Safety and Wellbeing, and governance and assurance continues to be	

Section	Samina Araa	Brief Cummery of Budget Brences/Strategy and Bioko	Total Savings Proposed 2025/26 £'000
Section	Service Area HR Reward, Policy, Strategy, Advisory and Business Partnering	Brief Summary of Budget Proposal/Strategy and Risks provided securing legislative compliance. Higher risk Health, Safety and Wellbeing issues and concerns linked to risk management is prioritised with the resource across the department. Reduction of HR Consultant capacity within Advisory services (£0.049m), with support for managers to self-serve wherever possible. Workloads will be rebalanced between teams to enable this reduction to be absorbed.	2.000
Innovation	Corporate Performance & Risk Information Rights Team	Reduction in the level of support provided in reporting the quarterly performance information, and streamlining the system used to report on the Council Plan delivery, which will reduce the resource capacity within the Corporate Risk & Performance Team (£0.020m). Discontinuation of third party Corporate Performance & Risk software, instead developing in-house solutions making best use of available digital tools (£0.18m). Explore the use of artificial intelligence to speed up the redactions related processes along with other process reviews within the team, to reduce the staffing resource across the team (£0.030m).	73
People and Innovation To	otal	(Establish)	289
Contribution to Orbis Orbis Internal Audit	Internal Audit and Counter Fraud.	Through generation of income, Orbis Internal Audit is aiming for an efficiency saving which will be a permanent reduction to Orbis operational budget	15
Orbis Services	Orbis Services refers to the Orbis Operational Budget which covers Internal Audit,	The partners have indicated that savings will be expected from the partnership from implementation of the new Procurement partnership model of service and a reduced central Orbis	100

Section	Service Area	Brief Summary of Budget Proposal/Strategy and Risks	Total Savings Proposed 2025/26 £'000
	Procurement and the Integrated elements of IT&D, as well as Finance 'Centres of Expertise' for Treasury and Insurance. The contribution is based on an agreed contribution ratio (ACR) as specified in the Inter-Authority Agreement (IAA). There are also Sovereign-held budgets managed by Orbis services on behalf of the partners but where overall control rests with the funding authority (these are known as 'Mobo' budgets)	Finance team are expected to deliver a reduced contribution to Orbis.
