* 2011/12 actual carbon footprint will be calculated in July 2012, hence 2012/13 target based on 4% reduction of 2011/12 target.

** Based on 4% reduction on 2011/12 target.

*** For 2012/13 target areas for Business Travel include Delivery Units only (excl. schools). All costs codes over £1,000 spend contribute to data.

**** Excludes traffic signals.

Data contains some estimation.

NOTES

- The carbon budget for 2012/13 has been set to reflect what we can feasibly collect data for and includes 2010/11 baseline emission areas (parts of business travel only).
- Collection of emissions data is complex and while much work has been done to improve the accuracy and reliability of the council's carbon footprint there is still more to do. The data reported here is based on the best information we have available at this moment in time.
- Buildings data is based on the Carbon Reduction Commitment submission and further alterations following credits and rebilling following the end of the financial year (there have been alterations since we produced the 2010/11 annual carbon footprint due to this). Bearing this in mind there will be differences between the annual footprint produced in August 2011 and this information.
- Electricity baseline for 2010/11 also includes data for 'out of contract sites' - this information has never been collected before but is now a legal requirement under the CRC.
