

# 1 Minor Modifications

## Table of Proposed Minor Modifications

Ref	Part of Submission Plan Changed	Change	Reason for Change
	Page	Para	Other
M0.1		Throughout Plan	(Note: new inserted wording is shown as highlighted and underlined, deleted wording is struck through.)
M0.2		Throughout Plan	Update page, table, paragraph numbers and policy numbers as required & correction of any typographical errors in addition to those listed below.
M0.3		Throughout Plan	Replace all references to 'Waste Sites DPD' and 'Minerals Sites DPD' with 'Waste and Minerals Sites Plan'
M0.4	4	Paragraph 1 (unnumbered)	Replace all references to 'Municipal Solid Waste' or 'MSW' to 'Local Authority Collected Waste' or 'LACW'
M0.5	4	Paragraph 2 (unnumbered)	Once adopted This Plan will forms part of the 'Development Plan' covering East Sussex, part of the South Downs and Brighton & Hove. The Plan will constitute the Authorities' 'Waste and Minerals Core Strategy'.
M0.6	4	Paragraph 3 (unnumbered)	Existing <b>This Plan replaces the majority of</b> waste and minerals planning policy is contained in the adopted East Sussex and Brighton & Hove Waste Local Plan (2006), and Minerals Local Plan (1999). The policies from both have been 'saved' which means they will remain in force until replaced by policies in the total new development plan document. You can see the list of which policies <b>have been</b> will be replaced by <b>in</b> each document in Section 9.
			The total new development plan document ( <b>known as the Waste and Minerals Local Plan</b> ) will be made up of:
			<ul style="list-style-type: none"> <li>● The Plan (this document); and</li> <li>● A waste <b>and minerals</b> sites document; and</li> <li>● A minerals sites document.</li> </ul>

# 1 Minor Modifications

Ref	Part of Submission Plan Changed	Change	Reason for Change																
M0.7	5 Paragraph 4 (unnumbered)	The sites documents will use the policies set out in <b>this</b> Plan to identify the most suitable areas for waste and minerals development.	Updated to reflect current stage																
M0.8	5 Table entitled 'Key dates for the Waste & Minerals Plan'	<table border="1"> <thead> <tr> <th>Stage</th> <th>Date</th> </tr> </thead> <tbody> <tr> <td>Preferred Strategy consultation</td> <td>21 October 2009 to 25 January 2010</td> </tr> <tr> <td>Draft Plan consultation</td> <td>27 October 2011 to 8 December 2011</td> </tr> <tr> <td>Formal ('Regulation 27') consultation on the soundness of the Plan</td> <td>24 February to 24 April 2012</td> </tr> <tr> <td>Submission of the Plan to Government</td> <td>Summer 2012</td> </tr> <tr> <td>Examination-in Public Examination</td> <td>Autumn 2012</td> </tr> <tr> <td><b>Consultation on Main Modification</b></td> <td><b>12 October to 9 November 2012</b></td> </tr> <tr> <td>Adoption</td> <td>January 2013</td> </tr> </tbody> </table> <p><b>Key dates for the Waste &amp; Minerals Plan</b></p>	Stage	Date	Preferred Strategy consultation	21 October 2009 to 25 January 2010	Draft Plan consultation	27 October 2011 to 8 December 2011	Formal ('Regulation 27') consultation on the soundness of the Plan	24 February to 24 April 2012	Submission of the Plan to Government	Summer 2012	Examination-in Public Examination	Autumn 2012	<b>Consultation on Main Modification</b>	<b>12 October to 9 November 2012</b>	Adoption	January 2013	Updated to reflect current stage
Stage	Date																		
Preferred Strategy consultation	21 October 2009 to 25 January 2010																		
Draft Plan consultation	27 October 2011 to 8 December 2011																		
Formal ('Regulation 27') consultation on the soundness of the Plan	24 February to 24 April 2012																		
Submission of the Plan to Government	Summer 2012																		
Examination-in Public Examination	Autumn 2012																		
<b>Consultation on Main Modification</b>	<b>12 October to 9 November 2012</b>																		
Adoption	January 2013																		
M0.9	5 Paragraph 5 (unnumbered)	This is the authorities' submission document which has been submitted to Government for public examination. When examining the Plan, an independent planning inspector will consider the comments that were received during the consultation in early Spring 2012 on the Plan's soundness and compliance with legislative requirements. The examination is an independent assessment to ensure that the Plan satisfies the requirements of regulations and legislation, and is 'sound'.	Updated to reflect current stage																

# Minor Modifications 1

Ref	Part of Submission Plan Changed	Change	Reason for Change
		<p>This Plan and associated documentation including the Information Papers listed below is available on the following website: <a href="http://consult.eastsussex.gov.uk">http://consult.eastsussex.gov.uk</a>.</p>	
M0.10	8	Index of Policies	Add WMP 1 Presumption in favour of sustainable development.
M1.1	10	1.1	In preparing the Plan, takes account must be taken of international, national, regional and local policies relevant to waste and minerals. A list of all the plans and policies that were being considered during the preparation of the Plan is included in the Sustainability Appraisal
M1.2	10	Footnote 1	Sustainability Appraisal Scoping Report - Submission Waste and Minerals Plan, June 2012
M1.3	10	1.1	Other relevant directives, national and regional policies and strategies are explained in more detail in our background Information Papers and in the Preferred Strategy consultation document (2009) which can be found on the Authorities Councils websites
M1.4	11	1.9	The Plan has taken into account local policies and strategies. In the Plan Area those of most direct relevance were:
M1.5	11	1.10	The East Sussex and Brighton & Hove Waste Local Plan (2006) provides a relatively up-to-date background to many of the issues that are considered in this Plan, and the Plan must take into account of its content because it was part of the statutory development plan. It provides the detailed policy framework for waste management including site allocations. The site allocation policies for built waste facilities have been 'saved' until they are replaced by relevant policies in the Waste and Minerals Sites Plan Development Framework (See Section 8).
M1.6	11	1.11	The East Sussex and Brighton & Hove Minerals Local Plan (1999) was also part of the statutory development plan, and setting out the detailed policy framework for minerals extraction and production including site allocations. The Certain policies have been 'saved' until they are replaced by relevant policies in the Waste and Minerals Sites Development Framework including those in this Plan (See Section 8)
M1.7	11	1.12	The strategies do not consider specific sites for new waste management facilities because that is dealt with through the planning process and the Waste and Minerals Plans Development Framework

# 1 Minor Modifications

Ref	Part of Submission Plan Changed	Change	Reason for Change
M1.8	12 1.13	The contract, which runs until 2033, involves the operation, development, and construction of a network of strategically placed facilities to increase recycling, composting, and recovery and to reduce the amount of <del>minerals</del> <ins>local authority collected</ins> waste going to landfill.	Update to reflect new terminology
M1.9	12 1.14	The <ins>National Park Local Plan</ins> Local Development Framework will set out the planning policies for the area.	Update to reflect new title
M1.10	12 1.14	There is also a One Planet Living Framework being prepared for Brighton & Hove in addition, the Waste and Minerals Plan will also help achieve the local target for 'zero waste' set by Brighton & Hove under the One Planet approach.	Update
		Footnote: <ins>The One Planet approach defines 'zero waste' as reducing waste, reusing where possible, and ultimately sending zero waste to landfill</ins>	
M1.11	12 1.15	Local Transport Plans are in place for <ins>East Sussex</ins> and for Brighton & Hove which both include the areas covered by the National Park, and cover the period 2006-2011 <ins>2026</ins> .	Update
M1.12	12 1.17	The district and borough councils in East Sussex, Brighton & Hove City Council, and the South Downs National Park Authority are preparing their own <ins>Local Plans</ins> <del>Core Strategies</del> as part of their Local Development Frameworks (LDFs). To date none have reached adoption. Care is being taken to avoid any material conflict between the Waste and Minerals Plan and <del>district and borough local plans</del> LDFs.	Remove old terminology
M1.13	12 1.18	The minerals and waste planning authorities which border the Plan Area are also preparing their own waste and minerals <ins>plans</ins> <del>development frameworks</del> , which the Plan needs to take into account.	Update to reflect new terminology

# Minor Modifications 1

Ref	Part of Submission Plan Changed	Change	Reason for Change																								
M1.14	13	1.21	<b>Municipal Solid Waste (MSW) Local Authority Collected Waste (LACW)</b> is taken in this plan to mean waste that is collected by local authorities. Generally it is from households (from doorstep collections and Household Waste Recycling Sites), from street cleansing, and from public parks and gardens. <sup>(1)</sup> The current production of over 365,000 tonnes per annum makes up about 21% of all wastes in the Plan Area.																								
M1.15	14	Table 1	Amend MSW line to delete figures showing MSW management prior to commissioning of Newhaven ERF																								
M1.16	14	Footnote 4	Figures in brackets represent the situation once the Newhaven ERF is fully operational																								
M1.17	15	Table 2	<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th>Type of activity</th> <th>Total Capacity<sup>(2)(3)(4)(5)</sup> (per annum)</th> <th>Factual update</th> </tr> </thead> <tbody> <tr> <td>Recycling and Composting (excluding bulk metals)</td> <td>490,000</td> <td></td> </tr> <tr> <td>Bulk Metals Recycling (e.g. Scrapyards)</td> <td><b>397,000</b><sup>(4)</sup><b>411,000</b></td> <td></td> </tr> <tr> <td>CDEW Recycling</td> <td>630,000</td> <td></td> </tr> <tr> <td>Other Recovery</td> <td>210,000</td> <td></td> </tr> <tr> <td>ERF Residues Treatment</td> <td>0</td> <td></td> </tr> <tr> <td>Total Hazardous Treatment</td> <td>61,000</td> <td></td> </tr> <tr> <td>Non-hazardous Landfill</td> <td><b>341,000</b><sup>(4)</sup><b>150,000</b> (total void space in cubic metres)<sup>(1)</sup></td> <td></td> </tr> </tbody> </table>	Type of activity	Total Capacity <sup>(2)(3)(4)(5)</sup> (per annum)	Factual update	Recycling and Composting (excluding bulk metals)	490,000		Bulk Metals Recycling (e.g. Scrapyards)	<b>397,000</b> <sup>(4)</sup> <b>411,000</b>		CDEW Recycling	630,000		Other Recovery	210,000		ERF Residues Treatment	0		Total Hazardous Treatment	61,000		Non-hazardous Landfill	<b>341,000</b> <sup>(4)</sup> <b>150,000</b> (total void space in cubic metres) <sup>(1)</sup>	
Type of activity	Total Capacity <sup>(2)(3)(4)(5)</sup> (per annum)	Factual update																									
Recycling and Composting (excluding bulk metals)	490,000																										
Bulk Metals Recycling (e.g. Scrapyards)	<b>397,000</b> <sup>(4)</sup> <b>411,000</b>																										
CDEW Recycling	630,000																										
Other Recovery	210,000																										
ERF Residues Treatment	0																										
Total Hazardous Treatment	61,000																										
Non-hazardous Landfill	<b>341,000</b> <sup>(4)</sup> <b>150,000</b> (total void space in cubic metres) <sup>(1)</sup>																										

<sup>1</sup> Due to the wider EU Waste Framework Directive definition of MSW, a new definition has been brought into use in England which relates to the waste previously recorded as Municipal Solid Waste and this is ‘Local Authority Collected Waste’. However for reasons of comparability and consistency with previous documents the term Municipal Solid Waste will continue to be used in this Plan.

<sup>2</sup> Utilisation of capacity out of the Plan Area not included

<sup>3</sup> See Information Paper 1 for further details

<sup>4</sup> Other Recovery includes Newhaven ERF

<sup>5</sup> Unused capacity at existing sites included

# 1 Minor Modifications

Ref	Part of Submission Plan Changed	Change	Reason for Change
		Type of activity	Total Capacity <sup>(2)(3)(4)(5)</sup> per annum)
	Hazardous Landfill		0 (cubic metres)
	Inert Landfill		15,000 (total void space in cubic metres) (not including sites exempt from EA permit)
M1.18	16	Footnote 12 See Information Paper 2, and <u>Waste and Minerals Monitoring Reports</u> Study	Factual Update
M1.19	18	Between paragraphs 1.36 and 1.37 Insert new paragraph: <b>Scrap metal is exported by sea from a dedicated facility within Newhaven Port</b>	Provide additional contextual information
M1.20	24	1.60 Approximately 750,000 and 200,000 tonnes of aggregates per annum are imported through Shoreham and Newhaven ports respectively. In 2009 approximately 1.14 million tonnes of aggregates per annum were imported through Shoreham Port (covering Brighton & Hove and West Sussex), and 249,000 tonnes were imported through Newhaven and Rye ports together.	Factual Update
M2.1	24	2.8 There <b>is/will</b> be an	Factual Update

2 Utilisation of capacity out of the Plan Area not included

3 See Information Paper 1 for further details

4 Other Recovery includes Newhaven ERF

5 Unused capacity at existing sites included

# Minor Modifications 1

Ref	Part of Submission Plan Changed	Change	Reason for Change
M2.2	25 2.10	Previous Governments have always been aware of these 'larger-than-local' interactions and have agreed National and regional policy to provide a framework which ensures that these 'larger than local' matters are taken into account in local planning policy. The new Localism Act 2011 includes a 'Duty to Cooperate' which is intended to facilitate this process.	Update
M2.3	25	Footnote 14  Para 4.33, PPS12: For a DPD to be sound it must be consistent with national policy and be in general conformity with regional policy. See National Planning Policy Framework, paragraph 182.	Update
M2.4	25 2.12	Regulations provided by the Localism Act 2011 will revoke Regional Spatial Strategies and it is expected that although its is uncertain exactly when these will come into force in 2012.	Factual Update
M2.5	26 After 2.13 LSS	The NPPF states that mineral planning authorities should plan for a steady and adequate supply of aggregates by preparing a Local Aggregates Assessment (LAA) based on a rolling average of 10 years sales data and other relevant local information, and an assessment of all supply options including marine dredged, secondary and recycled sources. The advice of the relevant Aggregate Working Party should be taken into account when preparing the LAA.	LAA requirement from NPPF
		<p>The Authorities consider that the requirement to produce a Local Aggregates Assessment set out within the NPPF is difficult to achieve in the Plan Area as there are limited sites producing material and therefore a lot of data is covered by confidentiality agreements. Relevant data has been used as evidence in support of the Plan and the majority of this information is summarised in IP2 and set out in the Authorities Monitoring Report.</p>	
M2.6	26 2.17	All of the above matters and the Authorities' proposed planning policy approach (as set out elsewhere in this document) are considered below.	Update for final adoption
M2.7	27 2.23	Approach: Minimum targets for MSW recycling are set proposed in the Plan which are considered achievable. In any event the Plan seeks management of waste in ... adequately catered for."	Update for final adoption
M2.8	36 2.61		Punctuation error
M2.9	37 2.63	This Plan proposes that implements the waste hierarchy is implemented in a number of key ways which are set out below and summarised as follows	Update for final adoption

# 1 Minor Modifications

Ref	Part of Submission Plan Changed	Change	Reason for Change
M2.10	38	2.63	Bullet point 7: "keeping the requirements for the disposal of waste to a minimum and placing strict constraints on the development of new land disposal capacity (Policies WMP 23b, WMP 68a and WMP 68b)."
M2.11	38	2.66	The Plan has limited influence in preventing waste being produced as the planning system can only intervene once a planning application has been submitted. However, the amount of waste management capacity that needs to be planned for will be affected by the success of waste prevention initiatives.
M2.12	39	2.69	This Plan proposes more includes challenging targets for recycling and other recovery of waste. Some of these targets are higher than those proposed in the 2009 Preferred Strategy. These targets are considered to be achievable and are based on the following:
M2.13	40	2.71	The recycling and recovery targets for CDEV proposed in the Preferred Strategy were based on those in the South East Plan but evidence suggests that our Plan targets could in fact be set higher.
M2.14	40	2.74	Add to paragraph 2.74:  Recovery targets are set out in Tables 3, 4 and 5 below for LACW, C&I waste and CDEV respectively. It is anticipated that these targets will be achieved as a result of a combination of the following factors:  Government policy and legislation intended to reduce reliance on landfill. <ul style="list-style-type: none"><li>• Government incentives intended to divert waste from landfill and increase recovery e.g. landfill tax and incentives related to the production of energy from waste e.g. Renewable Heat Incentive.</li><li>• The lack of availability of landfill locally and the subsequent need to develop alternatives.</li><li>• The make-up of waste arisings and their ability to be recovered.</li></ul>
M2.15	41	Policy WMP2b	...waste to be managed cannot be reasonably managed by a process...
			Grammatical correction

# Minor Modifications 1

Ref	Part of Submission Plan Changed	Change	Reason for Change
M2.16	44	Purpose of policy 2d	It is envisaged that this policy will be implemented by all planning authorities in the Plan Area.
M2.17	45	2.96	Defra is undertaking a review of the Site Waste Management Plan Regulations and following this and the adoption of the Plan, we will update the SPD, taking account of the outcome of the review to support the reduction of construction waste in the Plan Area.
M3.1	53	N/A	Policy WMP4 Applications for additional recovery capacity, above that shown in the table above, would need to demonstrate that the proposal reduced disposal to land requirements of waste arising in the Plan Area.
M3.2	54	3.15	It is proposed to continue to save the allocations for strategic non-land disposal facilities that are identified in the Waste Local Plan <del>will not be replaced</del> . This approach will provide some certainty in the interim period regarding land which could be developed in order that the proposed high waste recycling and recovery targets early on in the Plan period can be achieved.
M3.3	54	Overarching strategy for built waste facilities	The proposed-overarching strategy for provision of built waste facilities in the Plan Area is as follows:
M3.4	55	Box entitled 'Overarching Strategy for Built Waste Facilities'	Bullet point 4: <b>At this stage not replace Continue to save</b> the following Waste Local Plan policies (and the issues and constraints included on the associated inset plans)*:  Add footnote :  <b>Current Waste Local Plan 2006 allocations set out in Policies WLP7 and WLP8 and WLP9 are saved until such time as replaced by an adopted Waste and Minerals Sites Plan. (timetable set out in the Authorities' Development Schemes).</b>  Add new bullet point:

# 1 Minor Modifications

Ref	Part of Submission Plan Changed	Change	Reason for Change
		<p>5. In the subsequent Waste and Minerals Sites Plan, sufficient sites will be identified to meet the capacity gap identified in Policy WMP4. This will be undertaken following adoption of the Plan. It will involve a call for sites and a review of the saved site allocations identified in paragraph 4 above. The assessment of sites will consider constraints and there will be public consultation on the Waste and Minerals Sites Document.</p>	
M3.5	56	3.21	The policy needs to take into account the following circumstances where protection might be needed for sites for waste uses
M3.6	57	Policy WMP5	c. Sites allocated for waste uses in any <u>extant</u> development plan document except as indicated in section 9.  Add footnote:  *Currently saved allocations specified in Policies WLP7, WLP8 and WLP9 from the Waste Local Plan 2006 will continue to be saved pending review and assessment as part of the preparation of Waste and Minerals Sites Plan.
M3.7	56	3.24	such as that <u>which</u> takes place
M3.8	58	3.27	Consideration of locations within the Areas of Focus also needs to be balanced with ensuring the Plan is deliverable, and as such the Plan needs to consider economic viability which is often influenced by economies of scale.
M3.9	59	3.29	The Areas of Focus are those where the greatest sustainability benefits are likely to be achieved regarding new waste development or extensions to operations on existing sites as they are more likely to be close to:  • waste arisings • better transport network • complementary industries and waste development, for potential co-location benefits (for more detail about co-location see Policy WMP 4&19) existing facilities where there is scope for <u>physical site expansion/extension</u> (for more detail about <u>expansion/alterations within the site boundary</u> of existing facilities see Policy WMP 24&22)

# Minor Modifications 1

Ref	Part of Submission Plan Changed	Change	Reason for Change
M3.10	59	New Footnote	The Areas also reflect the road, rail and water transport connections within the Plan Area [New Footnote] See <a href="#">Information Paper 8 - Transportation of Waste and Minerals</a>
M3.11	59	3.32	It is considered that there is a range of potential sites that could be deliverable within the Areas of Focus over the Plan period. At this stage no specific sites for strategic waste facilities have been identified in this Plan but the Areas of Focus and the locational criteria are sufficiently precise to enable developers to assess where they would be likely to receive permission if other relevant considerations are satisfied. Specific sites will be identified later in the Waste and Minerals Sites Plan DPD,
M3.12	60	Policy WMP 6a	<b>Sustainable Locations for Waste Development (excluding land disposal)</b>  <p>Sites for additional waste recycling and recovery facilities and physical extensions to existing, whether new developments or extensions to operations on existing sites, should be sought within the broad Areas of Focus indicated on the Key Diagram inset plan. The sites identified in the Waste Sites DPD will also conform to the strategy set out here.</p> <p>Proposals should demonstrate how they will balance the need to be located close to waste arisings, moving waste management up the waste hierarchy, and minimising adverse impacts on communities and the environment.</p> <p>Proposals for development will only be considered outside of the Areas of Focus if it can be demonstrated that:</p> <ul style="list-style-type: none"> <li>a. There are no suitable sites available within the Areas of Focus to meet identified needs, or they are small-scale facilities / extensions to existing facilities predominantly to meet smaller, more localised needs only;<sup>(6)</sup>; and</li> <li>b. The development will contribute to moving waste management up the waste hierarchy and minimising greenhouse gas emissions; and</li> <li>c. They are well related to the relevant main treatment facilities within the Plan Area.</li> </ul>

<sup>6</sup> Smaller, localised facilities can be essential in helping to provide local solutions for collecting, sorting, bulking, and transferring and treating wastes in complementing the waste treatment provided at more strategic larger-scale facilities.

# 1 Minor Modifications

Ref	Part of Submission Plan Changed	Change	Reason for Change
M3.13	61	3.39	The policy <del>aims to be</del> s flexible enough to facilitate development to make use of the best sites that may become available during the Plan period.
M3.14	61	Policy WMP 6b	Grammatical correction  Waste <del>Built waste</del> development at mineral workings or landfill sites may also be acceptable but will usually be restricted to temporary permissions reflecting the lifespan of the minerals operation or landfill site. [New Footnote]  <b>The lifespan of a site may, but does not necessarily, include restoration phases</b>
M3.15	62	3.45	This is £2.00 for inert waste and currently £5664.00 for non-inert waste.
M3.16	64	3.48	Factual correction  Therefore no Areas of Search <del>are</del> <ins>will</ins> be put forward in the Plan.
M3.17	64	3.51	Factual correction  The additional information <del>has</del> led to a recategorisation of all the initial Areas of Search which indicates that the potential for development of a landraise site in any of the areas is at best limited, with constraints that appear difficult to overcome
M3.18	65	N/A	Update  Funding of the BHLR was confirmed in principle <del>by</del> in March 2012
M3.19	66	3.58	Grammatical correction  Box titled 'Ashdown Brickworks'  Additional sentence be added:  <b>This is limited to the spare capacity permitted under RR/525/CM.</b>
M3.20	67	N/A	Clarification. In response to comments by Rother DC.  Grammatical correction  and at an appropriate distance beyond the Plan Area  (space inserted between words 'an' and 'appropriate')
M3.21	68	Policy WMP 7b	Clarification within policy WMP7b that inert waste may be used in engineering operations  Proposals for the deposit of only inert waste on land will be permitted, subject to other policies of the Development Plan for the area, where relevant, where it is demonstrated that the proposal:

# Minor Modifications 1

Ref	Part of Submission Plan Changed	Change	Reason for Change
		<p>a. conforms with Policy WMP 8a (a, c, d, e); and</p> <p>b. <u>is an engineering operation such as that which forms part of a comprehensive scheme for restoration of suitable previously developed land or minerals sites; or</u></p>	
M3.22	71	3.75	<p>must be managed accordingly, however they <u>will bear</u> produced in such small quantities</p> <p><b>Hazardous Waste</b></p> <p>Existing capacity for the management of hazardous waste will be safeguarded, where this capacity makes a local, regional or nationally significant contribution to the management of specific hazardous waste streams.</p> <p>Permission will be granted for proposals for the development of additional hazardous waste management capacity where it can be demonstrated that:</p> <ol style="list-style-type: none"> <li>any proposal for the development of capacity for managing imported hazardous waste will not result in the overall hazardous waste management capacity utilised for imports, exceeding the quantity of hazardous waste exported from the Plan Area; <b>and</b></li> <li>subject to any reassessment of the need for certain types of management capacity which has been undertaken and published, or in some other way approved, by the Authorities, the proposal provides additional capacity for the management of hazardous waste in the following ways: <ul style="list-style-type: none"> <li>Treatment or incineration capacity (including thermal treatment technologies) for healthcare wastes. The need for this additional capacity in future is dependent on the implementation of a planning permission granted for such a facility in Eastbourne</li> <li>Expansion of existing treatment facilities or the introduction of novel treatment technologies for oil wastes;</li> <li>Treatment capacity for contaminated soils arising from construction, demolition and excavation where this is delivered via mobile treatment plant which can be moved close to the source of production.</li> </ul> </li> </ol>
M3.23	71	WMP 8a	<p>To overcome representor concerns of WMP8a being too restrictive.</p> <p>Factual correction</p>
M3.24	73	3.85	<p>The issues associated with the management of LLW are different from those presented by other waste streams and so it <b>is necessary</b> has been decided to <b>give</b> consider this matter <b>specific attention</b> in a way which is more detailed than considered at previous stages of this Plan's preparation.</p> <p>Update</p>
M3.25	75	3.93	<p>The key issues identified so far</p> <p>Clarification</p>

# 1 Minor Modifications

Ref	Part of Submission Plan Changed	Change	Reason for Change
M3.26	76 3.94	This is particularly true in <u>the Eastbourne and Hailsham catchment.</u>	Clarification
M3.27	76 3.96	Some of <u>this</u> the additional need for waste water treatment	Clarification
M4.1	80 4.18	Landings <u>directly</u> reflect demand	Additional clarification
M4.2	80	<p><b>Provision of Aggregates</b></p> <p>The Authorities will maintain provision for the production of land won aggregates at a rate of 0.10mtpa throughout the Plan period.<sup>11</sup></p> <p>The Mineral Planning Authorities will maintain a landbank of at least 7 years of planning permission for the extraction of sand and gravel.</p> <p>Footnote 1: If it appears that the provision for the production of land-won aggregates was not being maintained, a specific review of Policy WMP11 will be carried out. This would cover the possibility of identifying further feasible reserves. If this is not possible the the Authorities will consider other options with adjoining Minerals Planning Authorities and the Marine Management Organisation.</p>	Footnote added to clarify situation that would trigger a review of WMP10, as set out in footnote 3 of Table 11 and paragraph 4.20.
M4.3	84	WMP 12 ... Proposals for extensions to clay workings will be supported, subject to other policies of the plan, where it can be shown that the levels of permitted reserve at that site is insufficient to maintain brick and tile production for up to <u>at least</u> 25 years. ... ...	Factual correction to reflect National Policy (NPPF)
M4.4	85 4.36	...However, it is also important to find a balance between protecting mineral reserves resources for the future and allowing for necessary development of some of those areas.	Factual correction
M4.5	85 4.38	There is no need to safeguard sites that already have planning permission, but they are identified where their continued operation is key to the Plan. As such, the permitted sites in the Plan Area are intended to be identified as Mineral Consultation Areas in the Minerals Sites DPD.	Conflict with proposed changed wording of WMP 13

# Minor Modifications 1

Ref	Part of Submission Plan Changed	Change	Reason for Change
		Replace with:  [Redacted]  Minerals Consultation Areas need to be identified where the District and Borough Councils will notify the Authorities of any alternative development proposals. The Mineral Safeguarding Areas and Mineral Consultation Areas will be set out in the Waste and Minerals Sites Plan and be informed by the available information on geological resource and the current permitted sites within the Plan Area.	Clarification on timing and designation of Mineral Safeguarding Areas and Mineral Consultation Areas stated within the background text.
M4.6 87	WMP13	The Authorities will safeguard areas for land-won resource to ensure viable resources are not sterilised. As mineral resources in the Plan Area are particularly constrained, the Authorities will identify Mineral Safeguarding Areas and Mineral Consultation Areas in the Mineral-Sites-DPbWaste and Minerals Sites Plan, and expect to be consulted on any proposal for major development that would have a significant impact on current or future operations.  In addition, other non-strategic mineral resources that might need protection will be identified through the Plan review process and in the Mineral-Sites-DPbWaste and Minerals Sites Plan. This will allow a viability assessment to be made around additional resource need over the plan period.	Clarification made in response to comments made by Days Aggregates and the requirements of the NPPF
M4.7 89	N/A	Policy WMP14  Existing, planned and potential railhead and minerals wharf facilities (including rail sidings) and their consequential capacity will be safeguarded in order to contribute towards meeting local and regional supply for aggregates and other minerals as well as supporting modal shift in the transport of minerals. The need for railheads and minerals wharves will be monitored. Capacity for landing, processing and handling and associated storage of minerals at wharves in Shoreham, Newhaven and Rye Ports will be safeguarded. Alternative use proposals would need to demonstrate that there is no net loss of capacity for handling minerals within a port.	Clarification made in response to comments made by Days Aggregates and the requirements of the NPPF

# 1 Minor Modifications

Ref	Part of Submission Plan Changed	Change	Reason for Change
M4.8	90 4.52	There is no detailed planning policy governing on-shore oil and gas reserves, although Government policy for Energy Infrastructure is set out in a series of National Policy Statements published in 2011. The 14th round of licensing will begin following the completion of the Strategic Environmental Assessment. <sup>10</sup> Shale gas exploration has started in other areas of the UK, although the initial results of this will be confidential until 2014	To clarify Government policy
M4.9	90 4.57	Shale gas exploration has started in other areas of the UK, although the initial results of this will be confidential until 2014	Clarification
M4.10	91 4.61	Each phase of development (Exploration,	correction
M5.1	93 5.5	Therefore, the Plan needs to consider <sup>11</sup> a system of review to be initiated for inactive or dormant sites	Update for final adoption
M5.2	93	Policy WMP16 ...Restoration, after-use and aftercare arrangements should maximise the potential benefits, enhancements and opportunities, particularly for agriculture, landscape and biodiversity.	Clarification made in response to comments made by Dudmans (DK Symes) and requirements of the NPPF
M5.3	95 5.8	the Plan will seek <sup>12</sup> to minimise its environmental and amenity impacts	Update for final adoption
M5.4	100 5.25	5.25 The suggested thresholds for development where this policy would apply are taken from the thresholds for major development set out in Regulation <sup>13</sup> and the definition within form PS2 for reporting performance of planning authorities to Government.	Factual correction and update
		Footnote 76: 2006 No. 1062-The Town and Country Planning (General Development Procedure) (Amendment) (England) Order 2006 Statutory Instruments 2010 No. 2184 The Town and Country Planning (Development Management Procedure) Order 2010 (as amended)	
M5.5	100 5.26	5.26 Larger-scale major development is currently defined in Regulation <sup>14</sup> government as including: <ul style="list-style-type: none"><li>• the development of 10 or more dwellings or sites of more than 0.5 ha if the number is not given;</li><li>• for all other uses, where the floor space will be 1,000 square metres or more or the site is 1ha or more.</li></ul>	Factual correction and update
M5.6	102	Section Title	Expansion and Alterations within the Site Boundary of Existing <sup>15</sup> to Waste Facilities (WMP2+22) Clarification

# Minor Modifications 1

Ref	Part of Submission Plan Changed	Change	Reason for Change
M5.7	102	Policy WMP 21 <b>Expansions and Alterations – Increased Operational Capacity within the Site Boundary of Existing Waste Facilities</b>	Clarification Proposals for increased operational capacity expansions or alterations within the site boundary of existing waste management facilities will be supported in principle where it is demonstrated that:
M6.1	105	N/A Policy WMP22a	Clarification All buildings associated with waste and minerals developments should be of a scale, form and character appropriate to its location and incorporate innovative design, where appropriate, and allow sufficient space for the effective sorting, recycling, and recovery and storage of waste.
M6.2	107	Purpose of Policy WMP24	Update It supplements the guidance about climate change set out in the National Planning Policy Framework national policy (PPS1)
M6.3	107	Footnote 78	Update Planning Policy Statement: Planning and Climate Change (2007) National Planning Policy Framework, Section 10
M6.4	108	N/A Policy WMP23b	To ensure consistency with the NPPF (para 97) a. energy (including heat) will be obtained from decentralised renewable or low carbon sources where possible (although on-site generation of energy should not prejudice the movement of waste up the waste hierarchy); and
M6.5	109	Footnote 80	Update It is expected that such guidance will be published later in 2012. <sup>7</sup>
M6.6	114	Footnote 81 (Waste Volume 11, Section 3, Part 1)	Typographical error
M6.7	116	6.33	Correction The strategy for locating waste management developments has been informed by Environment Agency Flood Risk Areas the Strategic Flood Risk Assessment and relevant national policy, as set out in Policy WMP 6 (Sustainable Locations for Waste Development).

<sup>7</sup> Policy WMP 22 does not relate to extension to the physical boundaries of existing sites (site extensions). Such proposals will be assessed under Policy WMP 7a (Sustainable Locations for Waste Development). The use of the word in policy WMP 22 relates to, for example, increasing the amount of waste managed at a site without extending the site boundary.

# 1 Minor Modifications

Ref	Part of Submission Plan Changed	Change	Reason for Change										
M6.8	117 N/A	Policy WMP27b  To protect the quality <u>and quantity</u> of water resources in the natural environment of the Plan Area, including groundwater abstraction areas within the chalk of the South Downs, the Authorities will not grant permission for proposals which: a. cause unacceptable risk to the quality <u>and quantity</u> of surface and groundwater (including reservoirs);  b. cause changes to groundwater <u>and surface water levels</u> which would result in unacceptable adverse impacts on...	Clarification made in response to comment by Ticehurst Parish Council and to reflect paragraph 99 of the NPPF.										
M7.1	119	Implementation and Monitoring Table  Insert new row 1. Text:  <b>WMP1 - Presumption in favour of sustainable development</b>	Reflect addition of Policy  <table border="1"> <thead> <tr> <th>Policy</th><th>Delivery Body/ Mechanism</th><th>Key Delivery Partners</th><th>Delivery Target (how much, when, where)</th><th>Delivery Indicator</th></tr> </thead> <tbody> <tr> <td><b>WMP1 - Presumption in favour of sustainable development</b></td><td><b>ESCC, BHCC, SDNPA</b></td><td><b>Applicants, Statutory consultees</b></td><td><b>Maintain existing or improve performance of policies listed below (where possible).</b></td><td><b>Monitored through the overall performance of the indicators listed below.</b></td></tr> </tbody> </table>	Policy	Delivery Body/ Mechanism	Key Delivery Partners	Delivery Target (how much, when, where)	Delivery Indicator	<b>WMP1 - Presumption in favour of sustainable development</b>	<b>ESCC, BHCC, SDNPA</b>	<b>Applicants, Statutory consultees</b>	<b>Maintain existing or improve performance of policies listed below (where possible).</b>	<b>Monitored through the overall performance of the indicators listed below.</b>
