There is a local partnership to deliver the 'Warmth for Wellbeing' fuel poverty and cold homes programme throughout 2016 and the ongoing work to develop an over-arching Fuel Poverty and Affordable Warmth strategy for the city.

There is a need to note:

The limited impact the government's Energy Company Obligation and Green Deal initiatives have had in reducing fuel poverty and ensuring people have a warm home particularly those in the Private Rented Sector.

The piecemeal initiatives run by the government

The challenges to delivering warm homes in the city due to the Regency and Victorian style of buildings and amount of private rented sector
